Elderflower Absolute

PRODUCT INFORMATION

Product Name: Elderflower Absolute
Product Type: Absolute
Supplier Product Code: ELDC001
Original Declaration Issue Date: 27 October 2026
Original Declaration Version: 2 (02 September 2026)

ALLERGEN DECLARATION

AROMOLOGY hereby declares, based on the supplier's Allergen 2023 Declaration, that Elderflower Absolute (ELDC001) contains the fragrance allergens listed below.

The information is provided in accordance with Regulation (EC) No. 1223/2009, including amendments introduced by Regulation (EU) 2023/1545.

The concentrations represent total levels, including substances added directly and those naturally occurring in the raw material.

This information is provided to assist customers in complying with applicable cosmetic and detergent regulations.

EU DECLARABLE ALLERGEN COMPONENTS

Allergen Component	CAS Number(s)	EC Number(s)	Concentration (%)
Anisyl Alcohol	105-13-5	203-273-6	0.01%
Benzyl Alcohol	100-51-6	202-859-9	0.08%
Citronellol	1117-61-9, 7540-51-4, 106-	214-250-5, 231-415-7, 203-	0.03%

	22-9, 26489-01-0	375-0, 247-737-6	
Eugenol	97-53-0	202-589-1	0.03%
Geraniol	106-24-1	203-377-1	0.03%
Limonene	138-86-3, 7705-14-8, 5989-54-8, 5989-27-5	205-341-0, 231-732-0, 227-815-6, 227-813-5	0.03%
Linalool	78-70-6	201-134-4	0.04%

All allergen names, CAS numbers, EC numbers and concentrations are reproduced from the supplier's Allergen 2023 Declaration.

ALLERGEN LABELLING REQUIREMENTS

Under Regulation (EC) No. 1223/2009, as amended by Regulation (EU) 2023/1545, fragrance allergens subject to individual labelling requirements must be declared in the finished cosmetic product's ingredient list when their concentrations exceed the applicable thresholds.

Finished Cosmetic Product Type	Allergen Labelling Threshold
Leave-on products	Greater than 0.001%
Rinse-off products	Greater than 0.01%

These thresholds apply to the concentration of the relevant allergen in the finished cosmetic product, not directly to its concentration in the supplied Elderflower Absolute.

The allergen concentrations provided in Section 2 must therefore be considered alongside the percentage of Elderflower Absolute used in the final formulation.

ALLERGEN COMPOSITION STATEMENT

The supplied manufacturer's declaration identifies the following seven fragrance allergens in Elderflower Absolute:

Anisyl Alcohol, Benzyl Alcohol, Citronellol, Eugenol, Geraniol, Limonene and Linalool.

The declared concentrations range from 0.01% to 0.08% in the raw material.

These values are based on the original supplier's declaration and have not been independently analysed or verified by Aromology.

REGULATORY COMPLIANCE

This declaration is intended to support compliance with the following legislation:

Regulation (EC) No. 1223/2009: Cosmetic Products Regulation.

Regulation (EU) 2023/1545: Amendment concerning the labelling of fragrance allergens in cosmetic products.

The manufacturer of the finished cosmetic product is responsible for calculating the final allergen concentrations, determining the applicable labelling requirements and ensuring compliance with relevant legislation.

DISCLAIMER

The information contained in this declaration is based on the original manufacturer's Allergen 2023 Declaration for Elderflower Absolute, Product Code ELDC001, issued on 27 October 2026.

The allergen concentrations represent the information supplied by the original manufacturer.

This document has been reformatted into AROMOLOGY format without modifying the declared allergen identities or concentrations.

The information does not replace the requirement for finished-product safety assessment or regulatory review.
