AROMOLOGY

These classifications reproduce the phototoxicity considerations in Annex I, page 2, of the supplier's declaration. They describe category-specific assessment considerations and are not individual phototoxicity test results for this batch.

IMPORTANT USAGE CONDITIONS

The supplier states that a new safety evaluation may be required for applications outside the specified IFRA categories or where higher concentrations are intended.

The IFRA Standards concerning use restrictions are based on safety assessments by the Research Institute for Fragrance Materials (RIFM) and are implemented through the IFRA Scientific Committee.

The manufacturer of the finished product remains responsible for ensuring its safety, including further testing where necessary.

REGULATORY AND SAFETY INFORMATION

This certificate confirms conformity with the IFRA 51st Amendment restrictions applicable to the specified product, based on the supplied manufacturer's declaration.

The restrictions relate to substances covered by IFRA Standards and the toxicological endpoints addressed by those standards.

This certificate does not constitute a comprehensive safety assessment of all constituents present in Makrut Lime Leaf Essential Oil.

The manufacturer of the finished product is responsible for verifying compliance with all applicable cosmetic, fragrance and product safety regulations.

DISCLAIMER

The information contained in this certificate is based on the supplier's IFRA Certificate of Conformity for Makrut Lime Leaf Essential Oil, Product Code PEO1091.

The maximum concentrations stated represent IFRA limits in the finished product and should not be interpreted as recommended formulation concentrations.

The information has been reformatted for AROMOLOGY without changing the supplier's declared IFRA category limits.

Users must determine the suitability of the material for their intended applications and ensure compliance with relevant regulations.
