

***Declaration relating to the Cosmetics Regulation
EC 1223/2009***

PATCHOULI TERPENS

We hereby confirm that no substance listed in Annexes II and III of the "Cosmetics" Regulation CE 1223/2009 has been identified in the product referenced above.

However, we inform you that our control plan does not include the search for substances listed in the regulations such as phthalates, furocoumarins, pesticides or heavy metals.

The presence of substances required to be indicated in the list of ingredients referred to in Article 19(1)(g) of the Regulation is declared in our document TENEUR EN ALLERGENES / ALLERGENS CONCENTRATION

Since it is an essential oil, we confirm the absence of colorant and preservative. If necessary, the compliance of the peroxide level can be checked on the batch analysis certificate.

Information on CMRs and nanomaterials is available in our INFO document.

We transmit this information - in the current state of our knowledge - based on the data we have on this raw material, obtained through internal characterization analyzes (LOQ 200 ppm) or transmitted by our supplier, and not targeted analyzes.
