Ambreine Oil Natural

DOCUMENT AND BATCH DETAILS

Parameter	Information
Product Name:	Ambreine Oil Natural
CAS Number:	8016-26-0
EC Number:	946-922-5
Issue Date:	17 June 2026
Product Code:	182199E
Batch / Lot Number:	9429048697743
Manufacturing Date:	17 June 2026
Expiry / Retest Date:	17 June 2029

PRODUCT SPECIFICATIONS

Test Parameter	Specification / Typical Result	Test Method
Physical Appearance	Liquid	Not specified
Colour	Dark amber	Not specified
Odour	Conforms to standard	Not specified
Flash Point	140 °C	Not specified
Relative Density	Not specified	—
Refractive Index	Not specified	—
Purity / Assay	Not specified	—

QUALITY STATEMENT

The information in this certificate is based on the supplier's Certificate of Analysis and supporting Safety Data Sheet.

The original supplier certificate is a general product specification and typical Certificate of Analysis. It is not batch-specific unless a Aromology batch or lot number is stated.

The supplier indicates that the product has been compounded and released according to the relevant formula, production record and quality control process.

For custom compounds, the supplier's Production Sheet is the controlling specification, with a tolerance of up to 2% per ingredient where the overall scent profile and intended characteristics are not materially altered.

STORAGE AND HANDLING

Store in tightly sealed original containers in a cool place, away from ignition sources. Avoid inhalation and contact with skin and eyes.

Refer to the Safety Data Sheet for complete handling, storage, disposal and transport requirements.
