STATEMENT OF CONFORMITY

Aromology certifies that the material identified as Co-distilled Grapefruit & Cedarwood, Batch/Lot GFCW-260614, conforms to the stated organoleptic and physicochemical specifications.

The material is a mixture of aromatic substances intended for use as a perfumery raw material and is suitable for fragrance manufacturing, subject to the intended application and applicable

regulatory requirements.

STABILITY AND STORAGE

Store in a tightly closed container in a cool and dry place, protected from light.

When stored for extended periods, the quality of the material should be checked before use.

DISCLAIMER

This Certificate of Analysis has been prepared for Co-distilled Grapefruit & Cedarwood based on the applicable product specifications.

The information describes the established quality parameters of the material and should be used as a guide. The user is responsible for determining suitability for the intended application and compliance with applicable regulations.

Where batch-specific analytical results are available, those results shall take precedence over general specification ranges.
