### PRODUCT INFORMATION

| Parameter         | Specification                                 |
|-------------------|-----------------------------------------------|
| Product Name      | Fenugreek Absolute Premium Grade              |
| Botanical Name    | <i>Trigonella foenum-graecum</i> L.           |
| INCI Name         | <i>Trigonella Foenum-Graecum</i> Seed Extract |
| CAS Number        | 84625-40-1                                    |
| EC Number         | 283-415-1                                     |
| FEMA Number       | 2486                                          |
| Origin            | India                                         |
| Plant Part        | Seeds                                         |
| Extraction Method | Solvent Extraction                            |
| Product Type      | Natural Absolute                              |
| Grade             | Premium Perfumery Grade                       |

---

### ANALYTICAL SPECIFICATION

| Test                     | Specification                                                | Result   |
|--------------------------|--------------------------------------------------------------|----------|
| Appearance               | Dark amber to reddish-brown viscous liquid                   | Conforms |
| Odour                    | Rich maple syrup, caramel, roasted, nutty, tobacco, gourmand | Conforms |
| Relative Density (25 °C) | 0.975–1.000                                                  | Conforms |
| Refractive Index (20 °C) | 1.485–1.500                                                  | Conforms |
| Flash Point              | >70 °C                                                       | Conforms |
| Solubility               | Soluble in ethanol and perfumery solvents                    | Conforms |
| Purity                   | 100% Natural Absolute                                        | Conforms |

### Typical Naturally Occurring Constituents

| Constituent        | Typical Presence |
|--------------------|------------------|
| Sotolone           | Present          |
| Alkyl Pyrazines    | Present          |
| Lactones           | Present          |
| Phenolic Compounds | Present          |
| Fatty Acids        | Present          |
| Sesquiterpenes     | Present          |

Fenugreek Absolute is a natural solvent extract of *Trigonella foenum-graecum* seeds with a characteristic refractive index of approximately 1.491, density around 0.982 g/mL, and flash point near 74 °C.

### Storage

Store in tightly closed containers in a cool, dry and well-ventilated place away from direct sunlight, heat and oxidising agents.

### Shelf Life

36 months from the date of manufacture when stored under recommended conditions.

### Conclusion

This material conforms to Aromology's quality specifications for Fenugreek Absolute Premium Grade (India) and is suitable for professional perfumery, cosmetic and fragrance applications.
