### PRODUCT INFORMATION

| Item             | Details                                                            |
|------------------|--------------------------------------------------------------------|
| Product Name     | Jasmine Base                                                       |
| Product Code     | 184065 D                                                           |
| Manufacturer     | DSM-Firmenich                                                      |
| Product Type     | Synthetic Fragrance Base                                           |
| Olfactive Family | Floral                                                             |
| Technology       | Synthetic Base                                                     |
| Appearance       | Liquid                                                             |
| Odour Profile    | Rich jasmine floral accord with excellent naturality and diffusion |
| Flash Point      | 94 °C                                                              |

---

### PHYSICAL SPECIFICATIONS

| Parameter                | Specification                           | Representative Result |
|--------------------------|-----------------------------------------|-----------------------|
| Appearance               | Clear colourless to pale yellow liquid  | Complies              |
| Odour                    | Rich jasmine floral, natural, diffusive | Characteristic        |
| Specific Gravity (20 °C) | 0.985–1.025                             | 1.006                 |
| Refractive Index (20 °C) | 1.470–1.500                             | 1.483                 |
| Flash Point              | ≥94 °C                                  | 94 °C                 |
| Solubility               | Soluble in ethanol and perfume oils     | Complies              |

---

### QUALITY DECLARATION

The representative material:

- Complies with the manufacturer's quality specifications.

- Is intended exclusively for professional fragrance manufacture.
- Produces a balanced natural jasmine reconstruction with excellent floral diffusion and stability.

---

## STORAGE

Store in tightly sealed original containers in a cool, dry and well-ventilated area away from direct sunlight, heat and oxidising agents.

---

## CONCLUSION

The representative material complies with the above specifications. Batch-specific analytical results supplied by DSM-Firmenich shall take precedence over this representative Certificate of Analysis.
