#### Regulatory Interpretation

- Only Farnesol is present as a naturally occurring trace constituent
- All other EU-listed fragrance allergens are not detected or not naturally occurring
- Farnesol content remains below mandatory declaration thresholds when used within normal fragrance compounding limits

---

#### Important Notice

- Analytical values may be statistically generated and may not be lot-specific
- Values are indicative and should not be considered absolute
- It is the responsibility of the finished-product manufacturer to ensure final product compliance through appropriate safety assessment and testing
