DETECTION LIMIT

Detection Limit: <0.01%

The source documentation notes that the analysis may be statistically generated and may not always be lot-specific; reported quantities are therefore considered approximations.

EU COSMETIC REGULATORY STATEMENT

The supplied declaration includes the expanded Annex III fragrance-allergen list applicable under the amended EU Cosmetics Regulation. This includes, among others, Camphor, Beta-Caryophyllene, Eugenol, Limonene, Linalool, Pinenes, Terpineol and Terpinolene—the substances reported above for this material. 7

IMPORTANT INFORMATION

The concentrations reported in this declaration relate to the raw material and do not represent the concentrations that will necessarily be present in a finished cosmetic or fragrance product.

The actual concentration of each constituent in a finished product will depend upon the percentage of Black Pepper Essential Oil used in the final formulation.

The finished-product manufacturer remains responsible for calculating the resulting allergen concentrations and determining the applicable ingredient declaration and labelling requirements under current legislation.
