Blue Yarrow Essential Oil – A+ Grade

PRODUCT INFORMATION

Product Name: Blue Yarrow Essential Oil – A+ Grade
Botanical Name: *Achillea millefolium* L.
INCI Name: Achillea Millefolium Oil

CAS Number: 84082-83-7
Country of Origin: Bulgaria
Extraction Method: Steam Distillation
Plant Part: Flowers and Leaves

REGULATORY REFERENCE

Regulation (EC) No. 1223/2009, including the expanded fragrance-allergen requirements introduced by Commission Regulation (EU) 2023/1545.

EXPANDED EU FRAGRANCE ALLERGEN ASSESSMENT

A recent expanded allergen declaration for Bulgarian *Achillea millefolium* Essential Oil assesses the material against the expanded EU fragrance-allergen list.

The declaration reports no quantified content for several traditional allergens, including:

Fragrance Allergen	CAS Number	Reported Status
Benzyl Alcohol	100-51-6	–
6-Methyl Coumarin	92-48-8	–
Amyl Cinnamal	122-40-7	–

Fragrance Allergen	CAS Number	Reported Status
Cinnamyl Alcohol	104-54-1	–
Citral	5392-40-5	–
Eugenol	97-53-0	–

Important: A dash is reproduced as the source's reported status and should not automatically be interpreted as analytically proven zero.

ADDITIONAL PUBLISHED YARROW ALLERGEN INFORMATION

An independent Yarrow Essential Oil allergen declaration reports:

Allergen	CAS Number	Maximum Reported Content
Linalool	78-70-6	≤2.0%
Limonene	5989-27-5	≤2.0%

The same declaration reports dashes for numerous traditional allergens including Benzyl Alcohol, Citral, Eugenol, Coumarin, Geraniol, Citronellol, Benzyl Benzoate, Farnesol, Isoeugenol and others.

Because that declaration is for another Yarrow Essential Oil and not the current Aromology batch, the ≤2.0% figures should be treated as reference maximums rather than Aromology batch results.

AROMOLOGY ALLERGEN STATUS

Allergen	Status for Current A+ Grade
Linalool	May be naturally present – batch concentration required
Limonene	May be naturally present – batch concentration required
Benzyl Alcohol	No quantified content established
Citral	No quantified content established
Citronellol	No quantified content established
Coumarin	No quantified content established
Eugenol	No quantified content established
Farnesol	No quantified content established
Geraniol	No quantified content established
Isoeugenol	No quantified content established
Benzyl Benzoate	No quantified content established

FINISHED-PRODUCT LABELLING THRESHOLDS

Under EU cosmetic fragrance-allergen labelling requirements:

Finished Cosmetic Type	Individual Allergen Threshold
Leave-On Products	>0.001%
Rinse-Off Products	>0.01%

The expanded Yarrow allergen declaration itself uses these thresholds when describing the labelling requirement.

DECLARATION

Blue Yarrow Essential Oil is a natural complex botanical material. Its allergen and constituent profile may vary according to botanical material, harvest and distillation.

Available documentation indicates that Linalool and Limonene can occur in Yarrow Essential Oil, while a recent expanded allergen declaration for Bulgarian Yarrow reports no quantified content for several other listed fragrance allergens.

For a cosmetic safety assessment requiring exact percentages, a batch-specific quantitative allergen declaration should be used.
