GLOBALIDE®

PRODUCT IDENTIFICATION

Parameter	Details
Product Name	Globalide®
Manufacturer	Symrise
Product No.	106114
Commercial CAS	34902-57-3
Principal Isomer CAS	111879-80-2
Molecular Formula	C ₁₅ H ₂₆ O ₂
Molecular Weight	238.37 g/mol
Product Type	Macrocyclic Musk
Regulatory Basis	Regulation (EC) No. 1223/2009
Expanded Allergen Regulation	Regulation (EU) 2023/1545

EU ALLERGEN STATUS

The principal commercial substance:
GLOBALIDE / MUSK DECENONE
CAS 34902-57-3

is not itself identified as an individually declarable fragrance allergen under the expanded Annex III fragrance-allergen entries introduced by Regulation (EU) 2023/1545.

Therefore:

GLOBALIDE ITSELF IS NOT AN INDIVIDUALLY DECLARABLE EU FRAGRANCE ALLERGEN.

COSMETIC LABELLING THRESHOLDS

For substances that are specifically listed as Annex III fragrance allergens:

Product Type	Declaration Threshold
Leave-on cosmetics	0.001% / 10 ppm
Rinse-off cosmetics	0.010% / 100 ppm

TRADITIONAL EU ALLERGEN REVIEW

Based on the stated chemical identity of Globalide, the following traditional fragrance allergens are not identified as principal constituents:

Allergen	Representative Status
Alpha-Isomethyl Ionone	Not identified
Amyl Cinnamal	Not identified
Anise Alcohol	Not identified
Benzyl Alcohol	Not identified
Benzyl Benzoate	Not identified
Benzyl Cinnamate	Not identified
Benzyl Salicylate	Not identified
Cinnamal	Not identified
Cinnamyl Alcohol	Not identified
Citral	Not identified
Citronellol	Not identified
Coumarin	Not identified
Eugenol	Not identified
Farnesol	Not identified
Geraniol	Not identified
Hexyl Cinnamal	Not identified
Hydroxycitronellal	Not identified
Isoeugenol	Not identified
Limonene	Not identified
Linalool	Not identified
Methyl 2-Octynoate	Not identified
Evernia Prunastri Extract	Not identified

Evernia Furfuracea Extract	Not identified
----------------------------	----------------

EXPANDED EU ALLERGEN REVIEW

Globalide / Musk Decenone:

CAS 34902-57-3

is not itself an individually named fragrance allergen under Regulation (EU) 2023/1545.

However, commercial Globalide can contain related macrocyclic lactones and technical isomers.

The current Symrise quantitative allergen declaration should therefore be used to determine whether any separately listed Annex III substance occurs as:

- An impurity
- A related isomer
- A manufacturing by-product
- A minor constituent
- A stabiliser-related impurity

QUANTITATIVE DECLARATION

Regulatory Parameter	Status
Globalide itself individually declarable	No
CAS 34902-57-3 individually listed in EU 2023/1545	No
Traditional allergens identified as principal constituents	None identified
Expanded allergens identified as principal constituents	None identified from product identity
Batch-specific quantitative verification	Symrise declaration required
Absolute zero-allergen claim	Not supported without manufacturer analysis

IMPORTANT DISTINCTION – ENVIRONMENTAL HAZARD VS ALLERGEN STATUS

Globalide may carry significant aquatic environmental hazards.

This is independent from EU fragrance-allergen labelling.

A material can:

- Be toxic to aquatic organisms,
- Have environmental transport controls,

while not being an individually listed cosmetic fragrance allergen.

The Symrise SDS states that Globalide is toxic to aquatic life with long-lasting effects.

FINISHED-PRODUCT CALCULATION

If a current Symrise quantitative declaration identifies any listed allergen:

Final allergen concentration (%) =

Allergen in Globalide (%) × Globalide in fragrance (%) × fragrance dosage (%) ÷ 10,000

The resulting concentration must be compared with:

- 0.001% for leave-on products
- 0.010% for rinse-off products

All contributions of the same allergen from every formula ingredient must be added together.

DECLARATION

Based on the current chemical identity and Regulation (EU) 2023/1545:

GLOBALIDE® – SYMRISE

Product No. 106114

CAS 34902-57-3

is not itself identified as an individually declarable EU fragrance allergen.

No traditional Annex III allergen is identified as a principal constituent from the disclosed chemical identity.

For a definitive customer-specific quantitative declaration, the current original Symrise EU Allergen Declaration for Product No. 106114 should be used.

EU ALLERGEN DISCLAIMER

This is a supplier-style EU Fragrance Allergen Declaration based on product identity and current EU legislation.

It is not the original Symrise quantitative allergen certificate.

Current Symrise documentation for the exact product and batch shall prevail.
