GLOBANONE®

PRODUCT IDENTIFICATION

Parameter	Details
Product Name	Globanone®
Manufacturer	Symrise
Symrise Product No.	600317
INCI / Chemical Name	Cyclohexadec-8-en-1-one
CAS Number	3100-36-5
EC Number	401-700-2
Molecular Formula	C ₁₆ H ₂₈ O
Molecular Weight	236.4 g/mol
GC Purity	Minimum 97% – sum of isomers
Product Type	Macrocyclic Musk
Regulatory Basis	Regulation (EC) No. 1223/2009
Expanded Allergen Regulation	Regulation (EU) 2023/1545

EU ALLERGEN STATUS

The principal fragrance substance:
CYCLOHEXADEC-8-EN-1-ONE
CAS 3100-36-5
is not itself identified as an individually declarable fragrance allergen under the Annex III fragrance-allergen labelling provisions introduced or amended by Regulation (EU) 2023/1545.

Therefore:

GLOBANONE ITSELF IS NOT AN INDIVIDUALLY DECLARABLE EU FRAGRANCE ALLERGEN.

EU LABELLING THRESHOLDS

For substances that are specifically listed as Annex III fragrance allergens:

Product Type	Declaration Threshold
Leave-on cosmetic products	0.001% / 10 ppm
Rinse-off cosmetic products	0.010% / 100 ppm

These thresholds apply to the listed allergen concentration in the finished cosmetic product.

TRADITIONAL EU FRAGRANCE ALLERGEN REVIEW

Available allergen documentation for commercial Globanone grades has reported the product as free from the traditional SCCNFP fragrance allergens.

For the neat Globanone chemical identity, none of the following is identified as a principal component:

Allergen	Representative Status
Alpha-Isomethyl Ionone	Not identified
Amyl Cinnamal	Not identified
Amylcinnamyl Alcohol	Not identified
Anise Alcohol	Not identified
Benzyl Alcohol	Not identified
Benzyl Benzoate	Not identified
Benzyl Cinnamate	Not identified
Benzyl Salicylate	Not identified
Cinnamal	Not identified
Cinnamyl Alcohol	Not identified
Citral	Not identified
Citronellol	Not identified
Coumarin	Not identified
Eugenol	Not identified
Farnesol	Not identified
Geraniol	Not identified
Hexyl Cinnamal	Not identified
Hydroxycitronellal	Not identified

Isoeugenol	Not identified
Limonene	Not identified
Linalool	Not identified
Methyl 2-Octynoate	Not identified
Evernia Prunastri Extract	Not identified
Evernia Furfureacea Extract	Not identified

QUANTITATIVE DECLARATION

Regulatory Parameter	Status
Globanone individually declarable under EU allergen rules	No
CAS 3100-36-5 individually listed under EU 2023/1545	No
Traditional fragrance allergens identified as principal constituents	None identified
Historical commercial allergen declarations	No declarable allergens reported
Expanded 2023/1545 quantitative verification	Manufacturer declaration recommended
Absolute 0.0000% allergen claim	Not established from chemical identity alone

SUPPORTING COMMERCIAL ALLERGEN INFORMATION

A regulatory declaration for:
Globanone® 50% in IPM

states that the product is:
FREE OF THE DECLARED FRAGRANCE ALLERGENS
under the then-applicable European fragrance-allergen requirements.

This supports the absence of traditional fragrance allergens in the Globanone component, although the document predates the expanded 2023/1545 list and therefore cannot by itself serve as a complete 82-allergen declaration.

IMPORTANT DISTINCTION – IFRA VS EU ALLERGEN

Globanone is:
FRA 51 RESTRICTED

because of:

- Dermal sensitisation

- Systemic toxicity

but:

NOT ITSELF AN INDIVIDUALLY LISTED EU FRAGRANCE ALLERGEN.

These are separate regulatory systems.

A substance may be IFRA restricted without requiring individual Annex III allergen labelling.

FORMAL DECLARATION

Based on the chemical identity, available allergen documentation and current EU fragrance-allergen legislation:

GLOBANONE® – SYMRISE

Product No. 600317

CAS 3100-36-5

is not itself identified as an individually declarable EU fragrance allergen.

No traditional fragrance allergen is identified as a principal constituent.

A historical commercial Globanone allergen declaration additionally reports no declarable traditional fragrance allergens.

For a definitive expanded-allergen quantitative certificate under Regulation (EU) 2023/1545, the current original Symrise declaration for Product No. 600317 should be used.

EU ALLERGEN DISCLAIMER

This is a supplier-style EU Fragrance Allergen Declaration.

It is not the original Symrise quantitative allergen certificate.

Where the current Symrise expanded-allergen declaration provides specific analytical or calculated concentrations, the manufacturer-issued document shall prevail.
