OXANTHIA 50% TEC

PRODUCT IDENTIFICATION

Parameter	Details
Product Name	Oxanthia 50% TEC
Manufacturer	Symrise
Product No.	106171
Product Type	Mixture / Fragrance Preparation
CAS Number	Mixture
Active Ingredient	Oxanthia
Carrier	Triethyl Citrate (TEC)
Regulatory Basis	Regulation (EC) No. 1223/2009
Expanded Framework	Regulation (EU) 2023/1545

EU FRAGRANCE ALLERGEN STATUS

Based on the disclosed composition of the commercial preparation:

OXANTHIA + TRIETHYL CITRATE

neither the Oxanthia fragrance substance identity nor Triethyl Citrate is identified from the reviewed composition as one of the traditional individually declarable EU fragrance allergens.

A closely corresponding commercial Oxane 50% in TEC regulatory dossier also states that the product is free of the fragrance allergens covered by its EU fragrance-allergen statement. This is useful supporting evidence, although it is not a Symrise certificate for Oxanthia 50% TEC.

TRADITIONAL EU FRAGRANCE ALLERGEN REVIEW

Allergen	Status from disclosed composition
Alpha-Isomethyl Ionone	Not identified
Amyl Cinnamal	Not identified
Amylcinnamyl Alcohol	Not identified
Anise Alcohol	Not identified
Benzyl Alcohol	Not identified
Benzyl Benzoate	Not identified
Benzyl Cinnamate	Not identified
Benzyl Salicylate	Not identified
Cinnamal	Not identified
Cinnamyl Alcohol	Not identified
Citral	Not identified
Citronellol	Not identified
Coumarin	Not identified
Eugenol	Not identified
Farnesol	Not identified
Geraniol	Not identified
Hexyl Cinnamal	Not identified
Hydroxycitronellal	Not identified
Isoeugenol	Not identified
Limonene	Not identified
Linalool	Not identified
Methyl 2-Octynoate	Not identified
Evernia Prunastri Extract	Not identified
Evernia Furfuracea Extract	Not identified

EXPANDED EU ALLERGEN FRAMEWORK

The EU fragrance-allergen framework has been expanded under Regulation (EU) 2023/1545, and IFRA separately highlights this regulation when discussing fragrance-allergen labelling.

For the expanded list, I would use the following wording:

NO DECLARABLE EU FRAGRANCE ALLERGEN HAS BEEN IDENTIFIED FROM THE DISCLOSED PRINCIPAL COMPOSITION OF OXANTHIA 50% TEC.

However, because an original quantitative Symrise expanded-allergen declaration for Product 106171 was not publicly located, this should not be converted into a statement that every expanded allergen is analytically 0.0000%.

EU ALLERGEN SUMMARY

Parameter	Status
Product	Oxanthia 50% TEC
Product Type	Mixture
Oxanthia identified as individually declarable EU fragrance allergen	No identified listing
Triethyl Citrate identified as individually declarable fragrance allergen	No
Traditional EU fragrance allergens identified	None identified
Limonene	Not identified
Linalool	Not identified
Citral	Not identified
Geraniol	Not identified
Citronellol	Not identified
Coumarin	Not identified
Eugenol	Not identified
Farnesol	Not identified
Quantitative expanded-list certificate	Manufacturer declaration required for definitive ppm/% values

EU COSMETIC LABELLING THRESHOLDS

Where a listed fragrance allergen is present, individual labelling in the finished cosmetic is generally triggered above:

Product Type	Concentration
Leave-on products	0.001% / 10 ppm
Rinse-off products	0.010% / 100 ppm

FORMAL DECLARATION

Based on the disclosed composition and regulatory information reviewed:

OXANTHIA 50% TEC – SYMRISE
 PRODUCT NO. 106171
 PRODUCT TYPE: MIXTURE / FRAGRANCE PREPARATION

contains no EU fragrance allergen identified from its principal disclosed components.

EU FRAGRANCE ALLERGEN STATUS:

NO DECLARABLE FRAGRANCE ALLERGEN IDENTIFIED FROM DISCLOSED PRINCIPAL COMPOSITION

For exact quantitative values covering every substance introduced by Regulation (EU) 2023/1545, the latest Symrise quantitative allergen declaration should take precedence.

DISCLAIMER

This is a supplier-style EU Fragrance Allergen Declaration and not an original Symrise-issued quantitative allergen certificate. Exact trace concentrations and expanded-list ppm/% values should be taken from the latest manufacturer documentation when required.
