POIVROL®

PRODUCT IDENTIFICATION

Parameter	Details
Product Name	Poivrol®
Manufacturer	Symrise
Product No.	659616
CAS Number	68966-86-9
GC Purity	≥96% sum of isomers
Regulatory Basis	Regulation (EC) No. 1223/2009
Expanded Framework	Regulation (EU) 2023/1545

EU ALLERGEN STATUS

The principal substance: CAS 68966-86-9
is not itself one of the traditional individually declarable EU fragrance allergens.

However, because Symrise specifies Poivrol at minimum 96% GC purity, it would not be appropriate to state that every possible trace allergen is analytically 0.0000% without a current quantitative Symrise allergen declaration.

TRADITIONAL EU FRAGRANCE ALLERGEN REVIEW

Allergen	Status
Alpha-Isomethyl Ionone	Not identified
Amyl Cinnamal	Not identified

Allergen	Status
Amylcinnamyl Alcohol	Not identified
Anise Alcohol	Not identified
Benzyl Alcohol	Not identified
Benzyl Benzoate	Not identified
Benzyl Cinnamate	Not identified
Benzyl Salicylate	Not identified
Cinnamal	Not identified
Cinnamyl Alcohol	Not identified
Citral	Not identified as principal component
Citronellol	Not identified
Coumarin	Not identified
Eugenol	Not identified as principal component
Farnesol	Not identified
Geraniol	Not identified
Hexyl Cinnamal	Not identified
Hydroxycitronellal	Not identified
Isoeugenol	Not identified
Limonene	Not identified
Linalool	Not identified
Methyl 2-Octynoate	Not identified
Evernia Prunastri Extract	Not identified
Evernia Furfuracea Extract	Not identified

IMPORTANT TRACE-CONSTITUENT NOTE

A Symrise IFRA certificate for another commercial product built predominantly around CAS 68966-86-9 reports the restricted substance at 98.0800%, together with trace Eugenol at 0.0010% and Citral at 0.0007%.

However, that certificate is for Mahagonat Product 104024, not Poivrol Product 659616. Therefore those trace percentages must not be copied into the Poivrol allergen declaration.

For Poivrol, the correct supplier position is:

No traditional EU fragrance allergen can be quantitatively declared from the public Symrise Poivrol specification alone.

EXPANDED EU ALLERGEN FRAMEWORK

Under Regulation (EU) 2023/1545, additional fragrance allergens are subject to individual labelling requirements.

Based on the principal identity:

POIVROL / CAS 68966-86-9 IS NOT ITSELF IDENTIFIED AS AN INDIVIDUALLY DECLARABLE EU FRAGRANCE ALLERGEN.

A definitive statement of exact ppm/% levels for every expanded allergen requires the current quantitative Symrise allergen declaration for Product 659616.

EU ALLERGEN SUMMARY

Parameter	Status
Poivrol itself a traditional EU fragrance allergen	No
CAS 68966-86-9 individually declarable as traditional allergen	No identified listing
GC Purity	Minimum 96% sum of isomers
Stabilizer	None
Traditional allergens confirmed quantitatively	Manufacturer certificate required
Expanded EU allergen quantitative declaration	Manufacturer certificate required

EU COSMETIC LABELLING THRESHOLDS

Where a listed fragrance allergen is present in the finished cosmetic above the applicable threshold:

Product Type	Threshold
Leave-on products	0.001% / 10 ppm
Rinse-off products	0.010% / 100 ppm

FORMAL DECLARATION

Based on the available identity and composition information:

POIVROL® – SYMRISE
PRODUCT NO.: 659616
CAS NO.: 68966-86-9

The principal substance CAS 68966-86-9 is not itself identified as an individually declarable traditional EU fragrance allergen.

No exact quantitative declaration for trace EU fragrance allergens should be made without the current Symrise allergen certificate for Product 659616.

DISCLAIMER

This is a supplier-style EU Fragrance Allergen Declaration and is not an original Symrise quantitative allergen certificate. The latest manufacturer-issued allergen declaration should prevail for exact trace-level data.
