Statement

- No EU fragrance allergens have been intentionally added.
- Any listed allergens occur naturally within the botanical extract where present.
- Methyl Salicylate may also occur naturally and should be evaluated separately where applicable, although it is not one of the traditional 26 EU fragrance allergens.
- Quantitative allergen concentrations should be confirmed by batch-specific GC-MS analysis where regulatory disclosure is required.
- The manufacturer of the finished cosmetic product remains responsible for allergen declaration and compliance with Regulation (EU) 2023/1545.
