Regulatory Statement

- No fragrance allergens have been intentionally added separately.
- Constituents indicated as present arise naturally from the botanical absolute.
- “May be present” does not constitute a quantitative analytical result.
- Exact allergen concentrations must be established using batch-specific GC-MS or allergen analysis.
- Declaration in a finished cosmetic product depends on the total concentration contributed by all ingredients.
- The finished-product manufacturer remains responsible for compliance with Regulation (EC) No. 1223/2009, as amended by Regulation (EU) 2023/1545.
- This qualitative declaration must not replace the manufacturer’s quantitative allergen certificate where numerical disclosure is required.
