PRODUCT INFORMATION

Item	Details
Product Name	Ho Wood Essential Oil
Botanical Name	<i>Cinnamomum camphora</i> var. <i>linaloolifera</i>
INCI Name	Cinnamomum Camphora Linalooliferum Wood Oil
CAS Number	91745-89-0
EC Number	8022-91-1
Product Type	Essential Oil
Issue Date	18 July 2026

REGULATORY BASIS

Prepared with reference to:

- Regulation (EC) No. 1223/2009.
- Commission Regulation (EU) 2023/1545 concerning fragrance allergen labelling.

DECLARATION

Ho Wood Essential Oil is a natural essential oil exceptionally rich in linalool. As a naturally derived material, the exact concentration of fragrance allergens varies according to origin, harvest, distillation process and storage conditions.

Trace or batch dependent

Trace or batch dependent

Trace or batch dependent

Trace or batch dependent

Batch dependent

Commercial Ho Wood Essential Oil is typically composed predominantly of naturally occurring linalool, making it the principal EU-regulated fragrance allergen associated with this material. Batch-specific GC analysis should always be used for quantitative declarations.

OXIDATION

Linalool readily oxidises on exposure to air, forming oxidation products with increased sensitisation potential. Store in tightly sealed containers, protected from heat, light and oxygen. Where appropriate, antioxidants may be used to minimise peroxide formation.

CONCLUSION

Batch-specific analytical data should always be used when preparing EU cosmetic fragrance allergen declarations. The finished-product manufacturer remains responsible for compliance with Regulation (EU) 2023/1545.
