Expanded EU 2023/1545 Review

Based on currently available manufacturer information:

- No individually declared expanded EU fragrance allergens are expected to be intentionally present.
- Batch-specific confirmation should always be obtained from the current IFF quantitative allergen declaration.

Cumulative Assessment

Final cosmetic labelling must consider cumulative allergen contributions from:

- fragrance concentrate,
- essential oils,
- absolutes,
- botanical extracts,
- aroma chemicals,
- preservatives,
- all remaining raw materials.

Declaration

Subject to confirmation from the latest IFF quantitative allergen declaration:

Iso E Super® is not expected to require individual declaration as an EU fragrance allergen.

Final compliance remains the responsibility of the cosmetic manufacturer and EU Responsible Person.

Disclaimer

This document is a representative supplier-style EU Fragrance Allergen Declaration.

It is not the original IFF quantitative allergen declaration and does not replace batch-specific documentation. Before commercial use, verify against the latest IFF allergen statement, batch Certificate of Analysis, IFRA Certificate and applicable EU cosmetic legislation.
