Leather Extreme
(Cypriol & Suede)

Product Identification

Item	Details
Product Name	Leather Extreme (Cypriol & Suede)
Manufacturer	IFF (International Flavors & Fragrances)
Product Type	Proprietary Fragrance Base
INCI Name	Parfum
CAS Number	Proprietary Mixture
EC Number	Not Applicable (Mixture)
Physical Form	Liquid

Allergen Status

Leather Extreme (Cypriol & Suede) is a proprietary fragrance composition.

The exact allergen profile depends upon the confidential formulation and may vary between production batches.

The information below represents the potential presence of EU declarable fragrance allergens commonly associated with leather, cypriol, woody and suede fragrance bases. Final regulatory declarations must be verified from the original IFF batch documentation.

Representative EU Fragrance Allergen Assessment

EU Fragrance Allergen	Representative Status
Alpha-Isomethyl Ionone	May be present
Benzyl Alcohol	May be present

Benzyl Benzoate	May be present
Benzyl Salicylate	May be present

Methyl 2-Octynoate	Not normally expected
Additional allergens listed in Regulation (EU) 2023/1545	Batch-specific review required

"May be present" indicates that the allergen can occur depending on the proprietary formulation and is not a confirmation of its presence or concentration.

Finished Cosmetic Labelling Thresholds

Individual fragrance allergens must be declared on the finished cosmetic ingredient list when present above:

Finished Cosmetic Product	Declaration Threshold
Leave-on products	0.001%
Rinse-off products	0.01%

Finished Product Assessment

The concentration of each declarable allergen in the finished cosmetic must be calculated from:

- The concentration of the allergen in Leather Extreme (Cypriol & Suede)
 - The concentration of Leather Extreme in the fragrance concentrate
 - The concentration of the fragrance concentrate in the finished cosmetic
 - Contributions from every other fragrance ingredient in the formulation
-

Declaration

Based on the available technical information:

- Leather Extreme (Cypriol & Suede) is a proprietary fragrance composition.
- The complete EU fragrance allergen profile is confidential and batch-specific.
- Quantitative allergen concentrations must be obtained from the original IFF Allergen Declaration issued for the relevant batch.
- Final cosmetic ingredient labelling must be calculated using the actual batch data and the finished formulation.
- The cosmetic manufacturer or Responsible Person remains responsible for compliance with Regulation (EC) No. 1223/2009 and Regulation (EU) 2023/1545.

This declaration applies solely to the identified raw material and does not constitute certification of a finished cosmetic product.
