### PRODUCT INFORMATION

| Item         | Details                    |
|--------------|----------------------------|
| Product Name | Lilial Schiff Base Extra   |
| CAS Number   | 91-51-0                    |
| EC Number    | 202-073-6                  |
| Product Type | Schiff Base Aroma Chemical |

---

### REGULATORY BASIS

Prepared with reference to:

- Regulation (EC) No. 1223/2009
- Regulation (EU) 2023/1545 (Fragrance Allergen Labelling)

---

### EU FRAGRANCE ALLERGEN STATUS

Based on the published specification, Lilial Schiff Base Extra contains:

| Component                                     | Representative Level |
|-----------------------------------------------|----------------------|
| Residual Methyl Anthranilate                  | <5%                  |
| Residual Lilial (Butylphenyl Methylpropional) | <7%                  |
| Methyl N-Methylantranilate                    | <0.1%                |

## Declaration

- No complete quantitative EU fragrance allergen profile has been publicly published for this material.
- Exact concentrations of any EU-regulated fragrance allergens are proprietary and batch dependent.
- Batch-specific manufacturer documentation shall always take precedence.

---

## COSMETIC LABELLING

For cosmetic products marketed in the European Union, allergen labelling shall be based upon:

- The original manufacturer's batch-specific allergen declaration.
- The concentration of regulated allergens in the finished cosmetic product.

| Finished Cosmetic Product | Labelling Threshold |
|---------------------------|---------------------|
| Leave-on Products         | 0.001%              |
| Rinse-off Products        | 0.01%               |

---

## CONCLUSION

No complete public quantitative EU fragrance allergen declaration is available for Lilial Schiff Base Extra. Final cosmetic allergen labelling should be established using the original manufacturer's batch-specific documentation together with the finished product formulation.
