Regulatory Basis

This declaration is intended for assessment under:

- Regulation (EC) No. 1223/2009 on cosmetic products
- Regulation (EU) 2023/1545 concerning fragrance-allergen labelling
- The applicable entries of Annex III
- Current EU cosmetic ingredient-labelling requirements

Finished-Product Declaration Thresholds

Cosmetic Product Type	Labelling Threshold
Leave-on product	0.001% / 10 mg/kg
Rinse-off product	0.010% / 100 mg/kg

All contributions from every raw material in the finished cosmetic must be combined.

Allergen Status of Active Ingredient

The identified active substance:

2-Ethyl-3,6-dimethylpyrazine — CAS 13360-65-1

is not normally identified as one of the traditional individually declarable EU fragrance allergens.

However, the complete commercial preparation must be assessed because the carrier or additional formulation components may contain declarable allergens.

Disclaimer

This EU Fragrance Allergen Declaration is a representative template and is not evidence of testing or complete formulation analysis.

Before formal issue, it must be verified against:

- The exact carrier identity
- Carrier concentration

- Manufacturer's quantitative allergen declaration
- Active-material purity specification
- Additional additives, stabilisers or solvents
- Current consolidated EU Cosmetics Regulation
- Applicable Annex III allergen entries
- Finished-product formulation and use level

The cosmetic manufacturer or EU Responsible Person remains responsible for finished-product allergen calculations, ingredient-list labelling, Cosmetic Product Safety Report preparation and regulatory compliance.
