Product Identification

Item	Details
Product	Orris Absolute
Botanical Name	<i>Iris germanica</i> L.
CAS Number	8002-73-1
EC Number	289-955-4
Product Type	Natural Botanical Absolute

Representative EU Fragrance Allergens

Based on the botanical composition of genuine orris absolute and currently available technical information, the product is not generally regarded as containing significant concentrations of the EU Annex III fragrance allergens. However, naturally occurring trace levels may vary between harvests and production batches.

EU Fragrance Allergen	Representative Status
Linalool	Possible trace occurrence
Limonene	Possible trace occurrence
Citral	Possible trace occurrence
Geraniol	Possible trace occurrence
Citronellol	Possible trace occurrence
Farnesol	Possible trace occurrence

Commercial SDS documentation for high-irone orris absolutes identifies the material as not classified under CLP and lists α -irone as the principal reportable constituent rather than Annex III fragrance allergens.

EU Cosmetic Declaration Thresholds

Finished Cosmetic Product	Threshold
Leave-on Products	0.001%
Rinse-off Products	0.01%

These thresholds apply to the concentration of each allergen in the finished cosmetic product.

DECLARATION

Aromology Trading LLC declares that:

- Orris Absolute 4.5% Irones is a natural botanical extract.
- The product is not intentionally formulated with added EU-regulated fragrance allergens.
- Any naturally occurring fragrance allergens, if present, are batch dependent and should be confirmed by analytical testing.
- Final cosmetic labelling must be established from batch-specific analytical data and the complete fragrance formulation in accordance with Regulation (EU) 2023/1545.

DISCLAIMER

This declaration is based on representative technical information for *Iris germanica* orris absolute. It does not replace manufacturer-issued quantitative allergen analysis or batch-specific GC/MS results and should not be used as the sole basis for cosmetic labelling.
