Alpha-Isomethyl Ionone	Not expected

EU Fragrance Allergen	Status
Evernia prunastri (Oakmoss) Extract	Not Present
Evernia furfuracea (Treemoss) Extract	Not Present

Declaration

Patchouli Dark Absolute is a natural botanical extract. The concentration of naturally occurring fragrance allergens may vary from batch to batch due to agricultural origin, harvest conditions and extraction process. Published allergen declarations for patchouli materials indicate naturally occurring constituents such as linalool and limonene may be present at low levels, while other EU-regulated fragrance allergens are generally absent or below declaration limits.

The finished cosmetic manufacturer is responsible for determining ingredient labelling requirements based on the concentration of this material in the finished product and the applicable EU cosmetic regulations.
