Patchouli-derived materials may naturally contain low levels of fragrance allergens depending on botanical origin and processing. β-Caryophyllene is a naturally occurring constituent commonly reported in patchouli-derived materials.

EU COSMETIC LABELLING THRESHOLDS

Finished Product Type	Declaration Threshold
Leave-on Products	0.001%
Rinse-off Products	0.01%

DECLARATION

- No fragrance allergens are intentionally added.
 - Any listed allergens are naturally occurring constituents of the botanical material.
 - Final cosmetic labelling shall be determined using batch-specific analytical data together with the finished fragrance formulation.
 - The original manufacturer's analytical documentation shall take precedence where available.
