PRODUCT INFORMATION

Parameter	Details
Product Name	Phenyl Ethyl Acetate Natural
Alternative Name	Phenethyl Acetate Natural
Chemical Name	2-Phenylethyl Acetate
INCI Name	Phenethyl Acetate
CAS Number	103-45-7
EC Number	203-113-5
Product Type	Natural Aroma Chemical

ALLERGEN STATUS

Phenyl Ethyl Acetate is not itself identified as an individually declarable fragrance allergen under the representative fragrance-allergen requirements of Annex III to Regulation (EC) No. 1223/2009, as amended by Regulation (EU) 2023/1545.

Based on the representative high-purity composition of this material:

Assessment	Declaration
Intentionally Added EU Fragrance Allergens	None
Phenyl Ethyl Acetate	Not individually declarable as an EU fragrance allergen
Naturally Occurring Listed Allergens	Not expected above the raw-material reporting threshold
Cross-Contamination	Not intentionally introduced
Final Status	Batch-specific analytical data should be consulted where required

REPRESENTATIVE EU ALLERGEN PROFILE

Fragrance Allergen	Representative Content in Raw Material
Amyl Cinnamal	Not detected / not intentionally added
Amylcinnamyl Alcohol	Not detected / not intentionally added

Anisyl Alcohol	Not detected / not intentionally added
Benzyl Alcohol	Not detected or below reporting limit
Benzyl Benzoate	Not detected / not intentionally added
Benzyl Cinnamate	Not detected / not intentionally added
Benzyl Salicylate	Not detected / not intentionally added
Cinnamal	Not detected / not intentionally added
Cinnamyl Alcohol	Not detected / not intentionally added
Citral	Not detected / not intentionally added
Citronellol	Not detected / not intentionally added
Coumarin	Not detected / not intentionally added
Eugenol	Not detected / not intentionally added
Farnesol	Not detected / not intentionally added
Geraniol	Not detected / not intentionally added
Hexyl Cinnamal	Not detected / not intentionally added
Hydroxycitronellal	Not detected / not intentionally added
Isoeugenol	Not detected / not intentionally added
Limonene	Not detected or below reporting limit
Linalool	Not detected or below reporting limit
Methyl 2-Octynoate	Not detected / not intentionally added
Alpha-Isomethyl Ionone	Not detected / not intentionally added
Oakmoss Extract	Not present
Treemoss Extract	Not present
Additional Allergens Introduced by Regulation (EU) 2023/1545	Not intentionally added and not expected above the reporting threshold

“Not detected” should be interpreted as below the applicable analytical reporting limit rather than absolute absence.

COSMETIC LABELLING THRESHOLDS

Individual fragrance allergens must be declared in the finished cosmetic product's ingredient list when their final concentration exceeds:

Product Type	Labelling Threshold
Leave-on Cosmetic Products	0.001%
Rinse-off Cosmetic Products	0.01%

These thresholds apply to the concentration of each relevant allergen in the finished cosmetic product, not to the concentration of Phenyl Ethyl Acetate itself.

CALCULATION RESPONSIBILITY

The manufacturer or responsible person for the finished cosmetic product must calculate allergen concentrations using:

- The use level of Phenyl Ethyl Acetate Natural
- Batch-specific allergen information
- All other fragrance ingredients
- Essential oils and other Natural Complex Substances
- Processing aids and impurities
- The final concentration in the consumer product

DECLARATION

Aromology Trading LLC declares that:

1. Phenyl Ethyl Acetate is not intentionally supplied as an EU-listed fragrance allergen.
2. No EU-listed fragrance allergens are intentionally added to this product.
3. Based on representative purity information, listed fragrance allergens are not expected above the raw-material reporting threshold.
4. Natural-source and process-related trace variation may occur between batches.
5. The final cosmetic-product labelling decision remains the responsibility of the finished-product manufacturer or responsible person.
6. A batch-specific GC analysis or manufacturer allergen declaration should be used where quantitative confirmation is required.

DISCLAIMER

This declaration is based on representative composition and regulatory information for Phenyl Ethyl Acetate Natural, CAS 103-45-7.

It is not a substitute for:

- Batch-specific analytical testing
- The original manufacturer's allergen declaration
- Finished-product allergen calculations
- A cosmetic-product safety report
- Regulatory review by the responsible person

The original manufacturer's current documentation shall take precedence where available.
