PRODUCT INFORMATION

Parameter	Details
Product Name	Phenyl Ethyl Isovalerate Natural
Alternative Name	Phenethyl Isovalerate Natural
Chemical Name	2-Phenylethyl 3-Methylbutanoate
INCI Name	Phenethyl Isovalerate
CAS Number	659-70-1
EC Number	205-406-3
Product Type	Natural Aroma Chemical

REGULATORY BASIS

Commission Regulation (EU) 2023/1545 amended the EU Cosmetics Regulation regarding the individual labelling of fragrance allergens in cosmetic products.

ALLERGEN STATUS

Phenyl Ethyl Isovalerate is not itself identified as an individually declarable fragrance allergen under Annex III of Regulation (EC) No. 1223/2009, as amended by Regulation (EU) 2023/1545.

Based on the representative composition of this high-purity natural aroma chemical:

Assessment	Declaration
Intentionally Added EU Fragrance Allergens	None
Phenyl Ethyl Isovalerate	Not individually declarable as an EU fragrance allergen
Listed Allergens from Natural Raw Materials	Not expected above the analytical reporting threshold

Cross-Contamination

Not intentionally introduced

Final Confirmation

Subject to batch-specific manufacturer data

REPRESENTATIVE EU ALLERGEN PROFILE

EU Fragrance Allergen	Representative Status
Alpha-Isomethyl Ionone	Not intentionally added
Amyl Cinnamal	Not intentionally added
Amylcinnamyl Alcohol	Not intentionally added
Anisyl Alcohol	Not intentionally added
Benzyl Alcohol	Not expected above reporting threshold
Benzyl Benzoate	Not intentionally added
Benzyl Cinnamate	Not intentionally added
Benzyl Salicylate	Not intentionally added
Cinnamal	Not intentionally added
Cinnamyl Alcohol	Not intentionally added
Citral	Not intentionally added
Citronellol	Not intentionally added
Coumarin	Not intentionally added
Eugenol	Not intentionally added
Farnesol	Not intentionally added
Geraniol	Not intentionally added
Hexyl Cinnamal	Not intentionally added
Hydroxycitronellal	Not intentionally added
Isoeugenol	Not intentionally added
Limonene	Not expected above reporting threshold
Linalool	Not expected above reporting threshold
Methyl 2-Octynoate	Not intentionally added
Oakmoss Extract	Not present
Treemoss Extract	Not present
Additional Allergens under Regulation (EU) 2023/1545	Not intentionally added and not expected above the reporting threshold

“Not expected above reporting threshold” does not mean absolute analytical absence. Batch-specific test data should be used where quantitative confirmation is required.

COSMETIC LABELLING THRESHOLDS

Individual fragrance allergens must be declared in the finished cosmetic product when their concentration exceeds:

Finished Cosmetic Product	Labelling Threshold
Leave-on Products	0.001%
Rinse-off Products	0.01%

These thresholds apply to each relevant allergen in the finished cosmetic product.

They do not apply directly to the concentration of Phenyl Ethyl Isovalerate itself.

FINISHED-PRODUCT RESPONSIBILITY

The cosmetic product manufacturer or responsible person must calculate the final allergen content using:

- The use level of Phenyl Ethyl Isovalerate Natural
- Batch-specific raw-material data
- All other fragrance ingredients
- Essential oils and Natural Complex Substances
- Processing aids and impurities
- The final dilution in the consumer product

DECLARATION

Aromology Trading LLC declares that:

1. Phenyl Ethyl Isovalerate is not itself an individually declarable EU fragrance allergen.
2. No EU-listed fragrance allergens are intentionally added to this product.
3. Listed allergens are not expected above the representative raw-material reporting threshold.
4. Trace variation may occur because the material is produced from natural-source feedstocks.
5. The final cosmetic labelling decision remains the responsibility of the finished-product manufacturer or responsible person.
6. Manufacturer-issued quantitative allergen data shall take precedence where available.

DISCLAIMER

This declaration is based on representative composition and current regulatory information for Phenyl Ethyl Isovalerate Natural, CAS 659-70-1.

It is not a substitute for:

- Batch-specific analytical testing
- The original manufacturer's allergen declaration
- Finished-product allergen calculations
- A Cosmetic Product Safety Report
- Review by the designated responsible person

The original manufacturer's current regulatory documentation shall take precedence where available.
