Declaration

Premium Sandalwood Oil CO₂ is a natural botanical extract produced by supercritical carbon dioxide extraction. Due to the natural origin of the raw material, minor variations in composition may occur between batches. Naturally occurring fragrance allergens, if present, occur only in trace amounts typical of *Santalum album* oil.

The finished cosmetic manufacturer is responsible for determining the labelling requirements of the finished product based on the concentration of this ingredient and any batch-specific analytical data, in accordance with the applicable EU Cosmetics Regulation.
