EU Cosmetic Labelling Thresholds

Finished Cosmetic Product	Threshold
---------------------------	-----------

Finished Cosmetic Product	Threshold
Leave-on Products	0.001%
Rinse-off Products	0.01%

Finished Product Calculation

Allergen concentration in finished cosmetic (%) =

Taif Rose Oil concentration (%) × individual allergen concentration (%) ÷ 100

The total contribution from all fragrance ingredients containing the same allergen shall be included.

Declaration

1. Premium Taif Rose Oil naturally contains fragrance allergens characteristic of *Rosa damascena*.
2. Exact allergen concentrations vary naturally between production batches.
3. Naturally occurring methyl eugenol should always be confirmed using batch-specific GC/MS.
4. This material shall not be described as allergen-free.
5. Final cosmetic labelling remains the responsibility of the finished-product manufacturer.
6. The original producer's allergen declaration and analytical documentation shall take precedence.

Limitations

This declaration:

- applies only to the identified raw material;
- does not replace supplier batch-specific allergen documentation;
- does not certify finished cosmetic products; and
- should be reviewed whenever legislation or analytical composition changes.
