Hydroxycitronellal	Not expected
Alpha-Isomethyl Ionone	Not expected
Isoeugenol	Not expected
Limonene	May be present (trace)
Linalool	May be present (trace)

EU Fragrance Allergen	Status
Anise Alcohol	Not expected
Evernia prunastri (Oakmoss) Extract	Not Present
Evernia furfuracea (Treemoss) Extract	Not Present

Declaration

Raspberry Leaf Absolute Molecular – Leathery is a specialty natural perfumery ingredient produced by molecular distillation of Raspberry Leaf Absolute (*Rubus idaeus*). As a natural botanical material, its composition may vary slightly between harvests and production batches. Naturally occurring fragrance allergens, where present, occur only as inherent constituents of the botanical source and may vary in concentration.

This declaration is based on currently available compositional information for the raw material. Batch-specific analytical testing should be used where precise allergen quantification is required for cosmetic labelling.

The finished cosmetic manufacturer remains responsible for determining compliance with the allergen declaration requirements of Regulation (EU) 2023/1545 based on the concentration of this ingredient in the finished product.
