5. Regulatory Statement

Lemon Essential Oil is a natural cold-pressed essential oil that naturally contains fragrance allergens, principally Limonene, together with smaller amounts of Citral, Linalool, Geraniol and Citronellol. These constituents are naturally occurring components of the essential oil and are not added separately.

The declaration of these allergens on the finished cosmetic product label depends on their concentration in the final formulation as required by Regulation (EC) No. 1223/2009 and Commission Regulation (EU) 2023/1545.

Natural variation in allergen content may occur due to geographical origin, harvest conditions, seasonality and production batch.

6. Statement of Conformity

Aromology certifies that, based on available supplier information and compositional review, Lemon Essential Oil (*Citrus limon*) has been assessed for the presence of fragrance allergens listed under Annex III of Regulation (EC) No. 1223/2009 and Commission Regulation (EU) 2023/1545.

This declaration reflects the typical naturally occurring allergen profile of the material. The manufacturer of the finished cosmetic product remains responsible for determining whether allergen labelling is required based on the concentration of these substances in the final product.
