5. Regulatory Statement

Olibanum Coeur Molecular Distillation is produced by molecular distillation of *Boswellia carterii* essential oil to obtain a highly refined frankincense heart fraction.

The material naturally contains Limonene as a major constituent and may contain trace quantities of Linalool, Citral, and Geraniol depending on the botanical origin and molecular distillation process. These constituents are naturally occurring and may vary between harvests and production batches.

6. Statement of Conformity

Aromology certifies that, based on available supplier information, manufacturing data and compositional review, Olibanum Coeur Molecular Distillation has been assessed for the presence of fragrance allergens in accordance with:

- Regulation (EC) No. 1223/2009
- Commission Regulation (EU) 2023/1545

This declaration represents the typical allergen profile of the raw material. The manufacturer of the finished cosmetic product remains responsible for determining whether allergen labelling is required based on the concentration of these naturally occurring constituents in the finished formulation.
