IFRA REGULATORY STATUS

- Contains no substances restricted by IFRA Standards
- Bears no IFRA specification

This certificate provides restrictions for use of the specified product based only on those materials restricted by IFRA Standards for the toxicological endpoint(s) described in each Standard.

It does not provide certification of a comprehensive safety assessment of all product constituents.

AROMOLGY

IMPORTANT NOTES

- IFRA recommends that any material used to impart perfume or flavour in products intended for human ingestion should comply with relevant food and flavour regulations in the countries of distribution, or with the IOFI Code of Practice where such regulations are absent.
- The concentration of a fragrance ingredient should not exceed the usual concentration of the fragrance compound in the finished product.
- This certificate does not include food-status conformity. A separate document may be required.
- This document does not guarantee suitability for use in fragrances within the EEA. Additional regulatory statements (e.g. REACH conformity) may be required.
