

IFRA 51st Amendment

Product Name: Ethyl Furaneol Natural

Chemical Name: 2-Ethyl-4-hydroxy-5-methyl-3(2H)-furanone (Homofuraneol)

CAS Number: 27538-09-6

Supplier: Aromology Trading LLC

G05 Al Ghazal Building, Nadd Al Hamar

Dubai, United Arab Emirates

Product Information

Product Name Ethyl Furaneol Natural

CAS Number 27538-09-6

EC Number 248-514-6

Molecular Formula C₇ H₁₀ O₃

Intended Use Perfumery Raw Material

Issue Date 30 June 2026

Revision 1.0

IFRA Statement

Ethyl Furaneol Natural has been reviewed with reference to the International Fragrance Association (IFRA) Standards – 51st Amendment.

This material is subject to an IFRA restriction due to dermal sensitization and systemic toxicity considerations. Compliance with the IFRA Standards must therefore be determined according to the applicable IFRA Standard and the intended end-use category of the finished fragranced product.

The concentration of Ethyl Furaneol Natural in the finished consumer product shall not exceed the maximum level specified by the applicable IFRA Standard for the relevant product category. The fragrance manufacturer is responsible for calculating and verifying compliance in the finished fragrance and end product.

Declaration

This document certifies that the supplied raw material is suitable for use in fragrance manufacture provided it is used in accordance with the current IFRA Standards (51st Amendment) and all applicable regulatory requirements.

This statement applies to the raw material only and does not constitute an IFRA Certificate of Conformity for a finished fragrance compound or consumer product. Final responsibility for IFRA compliance rests with the manufacturer of the finished fragrance or finished product.

Storage

Store in tightly sealed containers in a cool, dry, well-ventilated area away from direct sunlight, heat, moisture, and strong oxidizing agents.
