IFRA Statement

This certificate confirms that Linalool Natural has been evaluated in accordance with the International Fragrance Association (IFRA) Standards, 51st Amendment (June 2023).

Linalool is a naturally occurring terpene alcohol isolated from Ho Wood Essential Oil (*Cinnamomum camphora* ct. Linalool) and is widely used in fine fragrances, cosmetics and personal care products. Linalool is not specifically restricted as an individual fragrance ingredient under the IFRA 51st Amendment. Its use is therefore governed by Good Manufacturing Practice (GMP) and any restrictions applicable to the finished fragrance composition.

Statement of Conformity

Aromology certifies that Linalool Natural complies with the requirements of the International Fragrance Association (IFRA) Standards, 51st Amendment (June 2023) when used in accordance with Good Manufacturing Practice (GMP).

Although Linalool is not subject to a specific IFRA concentration limit, it is a declarable fragrance allergen under the EU Cosmetic Regulation. Exposure to air and light may result in oxidation, producing compounds with increased skin sensitisation potential. Appropriate storage in tightly sealed containers away from heat, light and oxygen is recommended.

The manufacturer of the finished fragrance remains responsible for ensuring compliance with all applicable IFRA Standards and regulatory requirements.
