The concentration of a fragrance ingredient should not exceed the usual concentration of the fragrance compound in the finished product.

Due to the possibility of incidental oral ingestion from the use of the product in categories 1 and 6, an approved flavor material status as defined by the IOFI Code of Practice is required. Please note this certificate does not include this conformity check. A separate document is needed for such purpose.

RESTRICTED SUBSTANCES AND SPECIFICATIONS

It contains no substances restricted by IFRA standards and bears no IFRA specification.

ADDITIONAL INFORMATION

This certificate provides restrictions for use of the specified product based only on those materials restricted by IFRA Standards for the toxicity endpoint(s) described in each Standard. It does not provide certification of a comprehensive safety assessment of all product constituents.

It is the ultimate responsibility of our customer to ensure the safety of the final product (containing this fragrance ingredient) by further testing if need be.

Please note this document does not guarantee the suitability of the material as an ingredient in fragances in the EEA. Statements such as REACH conformity may be required for such purpose.

This document is electronically generated and therefore it is not signed.
