IFRA-RELEVANT CONSTITUENTS

The original Fraterworks IFRA certificate identifies the following materials and concentrations:

Restricted / Relevant Material	CAS Number	Concentration (%)
7-Methoxycoumarin	531-59-9	0.0025%
Citronellal	106-23-0	0.0050%
Lemon Oil, Cold Pressed	8008-56-8	5.0000%
Peru Balsam	8007-00-9	1.0000%
Citral	5392-40-5	0.2125%
Coumarin	91-64-5	18.0000%
Geraniol	106-24-1	3.0050%

IMPORTANT RESTRICTION NOTES

7-Methoxycoumarin: The supplier's IFRA annex states that 7-Methoxycoumarin must not be used as a fragrance ingredient as such. It also states that exposure from natural extracts is considered acceptable when the level in the finished product does not exceed 0.01% (100 ppm).

Peru Balsam: The supplier's IFRA annex states that crude Peru balsam should not be used as a fragrance ingredient. The stated restriction applies to Peru balsam extracts and distillates.

Citral: The IFRA certificate lists 0.2125%, while the separately supplied allergen analysis lists 0.1425%. This discrepancy requires supplier clarification.

CONFORMITY STATEMENT

According to the Aromology Certificate of Conformity, AMBREINE NATURAL meets the IFRA Standards up to and including the 51st Amendment, provided the maximum use concentrations above are respected.

The certificate addresses substances subject to IFRA Standards and does not replace a comprehensive safety assessment of the finished product. Formulators must also consider the total contribution of restricted materials from other ingredients.
