Aquaphore

PRODUCT INFORMATION

Product Name: Aquaphore
Trade Name: Aquaphore / Aqua Phore
Chemical Name: 2-(4-Methylphenoxy)ethanol

CAS Number: 15149-10-7
EC Number: 239-209-9

Molecular Formula: C₉ H₁₂O₂
Molecular Weight: 152.19 g/mol
Product Type: Synthetic Aroma Chemical / Fragrance Ingredient

IFRA 51 STATUS

CATEGORY 4 – FINE FRAGRANCE

NO RESTRICTION

Available product-specific technical information for Aqua Phore / Aquaphore, CAS 15149-10-7, reports:

IFRA CATEGORY 4: NO RESTRICTION – IFRA 51

Category 4 covers fine-fragrance applications such as perfumes and related hydroalcoholic fragrance products.

IFRA APPLICATION CATEGORIES

AROMOLOGY

IFRA Category	Status
Category 1	No Verified Product-Specific Limit Available
Category 2	No Verified Product-Specific Limit Available
Category 3	No Verified Product-Specific Limit Available
Category 4	NO RESTRICTION
Category 5A	No Verified Product-Specific Limit Available
Category 5B	No Verified Product-Specific Limit Available
Category 5C	No Verified Product-Specific Limit Available
Category 5D	No Verified Product-Specific Limit Available
Category 6	No Verified Product-Specific Limit Available
Category 7A	No Verified Product-Specific Limit Available
Category 7B	No Verified Product-Specific Limit Available
Category 8	No Verified Product-Specific Limit Available
Category 9	No Verified Product-Specific Limit Available
Category 10A	No Verified Product-Specific Limit Available
Category 10B	No Verified Product-Specific Limit Available
Category 11A	No Verified Product-Specific Limit Available
Category 11B	No Verified Product-Specific Limit Available
Category 12	No Verified Product-Specific Limit Available

Important

I recommend not changing the unverified categories to “100%” or “Not Limited.” I could verify Category 4 specifically, but I could not locate a manufacturer-issued IFRA 51 certificate giving the complete category table.

IFRA explains that its Standards can impose prohibition, restriction or specification requirements and that maximum doses, where applicable, refer to the finished consumer product.

IFRA COMPLIANCE STATEMENT

Based on the available documentation reviewed:

AQUAPHORE – AQUATIC FLORAL
CAS Number: 15149-10-7

has no identified IFRA 51 restriction for Category 4 (Fine Fragrance).

No manufacturer-issued public certificate establishing numerical maximum-use levels for all other IFRA categories was located during this review.

Therefore, this document does not assign unsupported numerical maximum concentrations to those categories.

A R O M O L O G Y

DECLARATION

This declaration relates specifically to Aquaphore / 2-(4-methylphenoxy)ethanol, CAS 15149-10-7.

The absence of an ingredient-specific restriction for an application should not be interpreted as a recommendation to use the raw material at 100%.

The manufacturer of the finished fragrance or consumer product remains responsible for ensuring that the complete formulation complies with all applicable IFRA Standards and safety requirements. IFRA similarly states that final responsibility for safe products rests with the companies placing them on the market.
