Blue Yarrow Essential Oil – A+ Grade

PRODUCT INFORMATION

Product Name: Blue Yarrow Essential Oil – A+ Grade

Botanical Name: *Achillea millefolium* L.

INCI Name: Achillea Millefolium Oil

CAS Number: 84082-83-7

Country of Origin: Bulgaria

Plant Part: Flowers and Leaves

Extraction Method: Steam Distillation

Appearance: Blue Liquid

Scent Family: Herbaceous

Scent Profile: Bitter Green, Herbal, Camphoraceous, Earthy

Product Type: Natural Essential Oil

The product identification above follows Aromology's specification. Other Bulgarian Blue Yarrow suppliers likewise identify the material as steam-distilled *Achillea millefolium* from Bulgaria.

IFRA 51 CONFORMITY INFORMATION

Applicable Reference: IFRA Standards – 51st Amendment

A product-specific IFRA 51 certificate establishing numerical maximum-use levels for this exact Blue Yarrow EO – Bulgaria – A+ Grade was not available in the documentation reviewed.

Accordingly, the following is the appropriate status:

IFRA Category	Maximum Use Level
Category 1	Not Established

AROM OLOGY

IFRA Category	Maximum Use Level
Category 2	Not Established
Category 3	Not Established
Category 4	Not Established
Category 5A	Not Established
Category 5B	Not Established
Category 5C	Not Established
Category 5D	Not Established
Category 6	Not Established
Category 7A	Not Established
Category 7B	Not Established
Category 8	Not Established
Category 9	Not Established
Category 10A	Not Established
Category 10B	Not Established
Category 11A	Not Established
Category 11B	Not Established
Category 12	Not Established

Important: “Not Established” does **not** mean “Not Limited,” 100%, or unrestricted use.

Historical IFRA compiled-standard documentation identifies Yarrow Oil – *Achillea millefolium* L. as a natural complex substance containing a restricted constituent, but that older reference is not sufficient to manufacture a current product-specific IFRA 51 category table.

DECLARATION

Blue Yarrow Essential Oil is a natural complex substance whose composition can vary by origin, harvest and distillation.

IFRA compliance of a finished fragrance should therefore be determined from a current product-specific IFRA certificate and the actual composition of the material.
