AROM OLOGY

IFRA Category	Maximum Use Level / Status
Category 10B	No Safety Limit Established
Category 11A	No Safety Limit Established
Category 11B	No Safety Limit Established
Category 12	No Safety Limit Established

IMPORTANT IFRA STATEMENT

The supplied Givaudan IFRA certificate states that the safe use of this material is supported by existing information.

There is no identified concern by RIFM (Research Institute for Fragrance Materials) and/or Givaudan for the ingredient(s) contained in the product.

Therefore:

NO SAFETY LIMITS HAVE BEEN ESTABLISHED

under current fragrance-industry practices and the IFRA Code of Practice.

This is important: the source does not provide numerical maximum-use percentages for the individual IFRA categories, so percentages should not be invented.

IFRA RESTRICTED MATERIALS

NONE

The supplied Givaudan certificate specifically states

“Does not contain any substance restricted by IFRA standard.”

DECLARATION OF CONFORMITY

Based on the manufacturer's supplied IFRA documentation, Boisiris – Givaudan complies with the requirements of the IFRA 51st Amendment.

No IFRA safety limit has been established for the material under the current practices of use across the fragrance industry and the IFRA Code of Practice.

The manufacturer of the finished product remains responsible for ensuring the safety and regulatory compliance of the final formulation.
