Camphor Essential Oil

PRODUCT INFORMATION

Product Name: Camphor Essential Oil
Botanical Name: Cinnamomum camphora
INCI Name: Cinnamomum Camphora (Camphor) Wood Oil

Product Code: PEO1028
CAS Numbers: 8008-51-3; 92704-03-5

IFRA CONFORMITY DECLARATION

The supplied certificate states that Camphor Essential Oil complies with the Standards of the International Fragrance Association (IFRA), up to and including the 51st Amendment, published in July 2023, when used at or below the category-specific maximum concentrations listed below.

The percentages refer to the concentration of Camphor Essential Oil in the finished product.

MAXIMUM PERMITTED CONCENTRATIONS

IFRA Category	Application	Maximum Level in Finished Product
1	Lip products and children's toys	14.33%
2	Deodorants, antiperspirants and axillary products	4.13%
3	Face, eye and fingertip-applied products	12.67%
4	Fine fragrances, perfumes, colognes and related products	80.00%
5A	Body lotions, body creams and body oils	20.00%
5B	Facial moisturisers and facial creams	20.00%
5C	Hand creams, nail-care products and hand sanitisers	20.00%

AROM OLOGY

5D	Baby creams, baby oils and baby talc	8.40%
6	Oral-care products	46.33%
7A	Rinse-off hair products	26.33%
7B	Leave-on hair products	26.33%
8	Products with significant ano-genital exposure	6.40%
9	Rinse-off body and hand products	90.00%
10A	Household products excluding aerosol and spray products	90.00%
10B	Household aerosol and spray products	100.00%
11A	Minimal-transfer products without UV exposure	9.40%
11B	Minimal-transfer products with potential UV exposure	9.40%
12	Products without intended direct skin contact	100.00%

FINE FRAGRANCE APPLICATION

IFRA Category 4 — Maximum Concentration: 80.00%

This is the maximum level stated in the supplied IFRA 51 certificate for Camphor Essential Oil in finished fine-fragrance products.

IFRA CATEGORY APPLICATION GUIDE

Category	Examples of Product Applications

12	Candles, incense, automated air fresheners, air-delivery systems, cat litter and other non-skin-contact products

The category descriptions are condensed from the two annexes in the supplied IFRA certificate.

CONDITIONS AND LIMITATIONS

The category limits apply to the specified product and the applications identified in the certificate.

Other applications or higher concentrations may require an additional safety evaluation.

The certificate addresses restrictions arising from IFRA Standards for their specified toxicity endpoints. It does not constitute a comprehensive safety assessment of every constituent.

The manufacturer of the finished product remains responsible for determining the safety of the final formulation, including any additional testing that may be necessary.
