Additional Information About IFRA-Restricted Ingredients

The information supplied in the source document regarding the presence and concentration of fragrance ingredients subject to IFRA limits is as follows:

Material Subject to an IFRA Limit CAS Number Concentration in Material

Benzyl Alcohol	100-51-6	0.0250%
Eugenol	97-53-0	0.0010%
Geraniol	106-24-1	0.0060%
Phenylacetaldehyde	122-78-1	0.0070%
Methyl Salicylate	119-36-8	Not detected

Declaration

Based on the information contained in the supplied source document, Ceylon Tea Leaf Absolute conforms to the applicable requirements of the IFRA Standards up to and including the 51st Amendment when used within the maximum concentrations stated above.

The limits are expressed as the maximum percentage of this supplied material permitted in the finished consumer product.

This Certificate addresses only conformity with IFRA Standards. It does not replace a complete toxicological assessment, cosmetic safety report, stability assessment or evaluation of the final consumer product.
