IFRA Status

Chocovan TEC AB 7244C is a proprietary fragrance mixture. Its IFRA compliance cannot be determined solely from its trade name or general odour description.

A numerical IFRA Certificate of Conformity must be based on:

1. The complete quantitative Givaudan formula.
2. The identity and concentration of every constituent subject to an IFRA prohibition, restriction or specification.
3. Contributions from natural-source constituents and manufacturing impurities.
4. The concentration of Chocovan in the fragrance compound.
5. Contributions from all other fragrance ingredients.
6. The applicable IFRA finished-product category.
7. The fragrance dosage in the finished consumer product.

The IFRA 51st Amendment provides the applicable system, category definitions and certificate framework for assessing fragrance mixtures.

AROM OLOGY **Required Compliance Procedure**

Before issuing an IFRA Certificate for a finished fragrance containing Chocovan, the responsible formulator must:

1. Obtain the current Givaudan IFRA Certificate.
2. Confirm the exact product code and formula revision.
3. Confirm the production batch where documentation is batch-linked.
4. Identify the intended IFRA finished-product category.
5. Determine the percentage of Chocovan in the fragrance concentrate.
6. Determine the percentage of fragrance concentrate in the finished product.
7. Include restricted-substance contributions from every other ingredient.
8. Apply the lowest applicable maximum concentration.
9. Review prohibited and specification-controlled materials.
10. Complete the finished-product safety assessment.
11. Retain all calculation and source documentation.

Declaration

Chocovan TEC AB 7244C may be incorporated into fragrance formulations only when:

- The current manufacturer IFRA documentation has been reviewed.
- The complete fragrance formulation complies with the IFRA Standards, 51st Amendment.
- The relevant finished-product category is correctly applied.
- All restricted-constituent contributions remain within the applicable limits.
- The finished consumer product undergoes an appropriate safety assessment.

This declaration:

- Does not establish a universal maximum-use percentage.
- Does not replace the original Givaudan IFRA Certificate.
- Does not certify a finished fragrance, cosmetic or consumer product.
- Must be reviewed if the Givaudan formula or product code changes.
