Declaration

Aromology Trading LLC declares that Cistus Absolute – Spain has been reviewed with reference to the International Fragrance Association Code of Practice and the IFRA Standards under the 51st Amendment.

Cistus Absolute is not identified as a prohibited fragrance material under the IFRA 51st Amendment. However, because it is a natural complex substance, it may contain naturally occurring constituents that are covered by individual IFRA Standards.

The finished formulation must therefore be assessed for all restricted constituents contributed by this material and by every other fragrance ingredient used in the formulation.

IFRA Use Statement

IFRA Product Categories	Use Statement
-------------------------	---------------

Categories 1–12	No material-specific maximum use level is declared without batch-specific compositional data. Use according to Good Manufacturing Practice and verify the finished formulation against all applicable IFRA Standards.

Naturally Occurring Constituents Requiring Consideration

AROM OLOGY

Depending on the batch composition, constituents such as the following may require consideration in the finished product assessment:

- Limonene
- Linalool
- Citral
- Geraniol
- Eugenol
- Farnesol
- Other restricted constituents identified by batch-specific analysis

Important Conditions

- This statement applies only to the raw material identified above.
- It is not a certificate of compliance for any finished fragrance or cosmetic product.
- Quantitative IFRA limits cannot be assigned accurately without a batch-specific compositional or GC-MS report.
- The manufacturer of the finished product remains responsible for calculating exposure and ensuring compliance within the applicable IFRA category.
