Civette Givco® 208/2

Product Identification

Item	Details
Product Name	Civette Givco® 208/2
Commercial Description	Animalic, Civet, Musky
Manufacturer	Givaudan SA
Givaudan Product Code	21009160
Product Type	Proprietary Fragrance Base
Chemical Nature	Mixture of fragrance ingredients
CAS Number	Proprietary Mixture
EC Number	Not applicable to mixture
INCI Name	Parfum
Physical Form	Liquid
Intended Use	Professional fragrance formulation

IFRA Status

Civette Givco® 208/2 is a proprietary fragrance composition designed to reproduce the warm, musky, animalic and civet-like effects historically associated with natural civet.

Because the complete quantitative formulation is confidential, IFRA compliance cannot be established solely from:

- The product name
- Its animalic odour profile
- Its Givco designation
- Its internal product code
- General information about civet accords

AROM OLOGY

A numerical IFRA Certificate of Conformity must be based on the current Givaudan regulatory assessment for the exact product and formula revision.

IFRA 51 Assessment Requirements

The permitted use level must be determined from:

1. The complete quantitative composition of Civette Givco® 208/2.
 2. Every constituent subject to an IFRA prohibition, restriction or specification.
 3. Restricted substances occurring as impurities or through natural-source ingredients.
 4. The percentage of Civette Givco® 208/2 in the fragrance concentrate.
 5. Contributions from all other fragrance raw materials.
 6. The applicable IFRA finished-product category.
 7. The fragrance concentration in the finished consumer product.
 8. The lowest applicable constituent-specific limit.
-

Potentially Relevant Constituents

Depending upon the confidential formulation, the regulatory assessment may need to consider:

- Civetone or related macrocyclic musk materials
- Indolic materials
- Phenolic animalic materials
- Eugenol
- Isoeugenol
- Coumarin
- Benzyl alcohol
- Benzyl benzoate
- Benzyl salicylate
- Linalool
- Limonene
- Other musk, floral, balsamic or animalic fragrance constituents
- Restricted constituents introduced through natural extracts

The inclusion of a substance in this list does not confirm that it is present.

IFRA Category Table

IFRA Finished-Product Category	Maximum Permitted Level
Category 1	Refer to current Givaudan IFRA certificate
Category 2	Refer to current Givaudan IFRA certificate
Category 3	Refer to current Givaudan IFRA certificate

Category 10B	Refer to current Givaudan IFRA certificate
Category 11A	Refer to current Givaudan IFRA certificate
Category 11B	Refer to current Givaudan IFRA certificate
Category 12	Refer to current Givaudan IFRA certificate

No unsupported numerical limits are assigned in this supplier declaration.

Required Compliance Procedure

Before issuing an IFRA Certificate for a fragrance containing Civette Givco® 208/2, the responsible formulator must:

1. Obtain the current Givaudan IFRA 51 document.
2. Confirm the exact product code 21009160.
3. Confirm the formula revision and batch identity.
4. Identify the intended finished-product application.
5. Select the correct IFRA category.
6. Determine the percentage of Civette Givco® 208/2 in the fragrance concentrate.
7. Determine the fragrance dosage in the finished product.
8. Include restricted-substance contributions from all other ingredients.
9. Apply the most restrictive applicable IFRA Standard.
10. Complete the finished-product safety assessment.
11. Retain the supporting calculations and manufacturer documents.

Declaration

Civette Givco® 208/2 may be incorporated into professional fragrance compositions provided that:

- The current Givaudan IFRA documentation is reviewed.
- The correct finished-product category is applied.

A R O M O L O G Y

- All restricted constituents remain within their permitted levels.
- Contributions from the full fragrance formulation are included.
- A suitable finished-product safety assessment is completed.

This declaration:

- Does not establish a universal maximum-use percentage.
- Does not replace the original Givaudan IFRA Certificate.
- Does not certify a finished fragrance or cosmetic product.
- Must be reviewed whenever the manufacturer's formula or documentation changes.
