Co-distilled Cypriol & Davana Oil

PRODUCT INFORMATION

Product Name: Co-distilled Cypriol & Davana Oil
Chemical Description: Mixture of Aromatic Substances
CAS Number: Mixture
EC / EINECS Number: Mixture

Product Type: Perfumery Raw Material / Aromatic Mixture
Intended Use: Raw Material for Fragrance Manufacturing

IFRA CONFORMITY

We certify that:

CO-DISTILLED CYPRIOL & DAVANA OIL

is in compliance with the Standards of the International Fragrance Association (IFRA), up to and including the 51st Amendment to the IFRA Standards, published June 2023, provided that the material is used in the applicable categories at or below the maximum concentration levels stated below.

IFRA 51 MAXIMUM USE LEVELS

IFRA Category	Maximum Level of Use
Category 1	2.00%
Category 2	2.00%
Category 3	2.00%
Category 4	2.00%
Category 5A	2.00%
Category 5B	2.00%

AROMOLOGY

IFRA Category	Maximum Level of Use
Category 5C	2.00%
Category 5D	2.00%
Category 6	2.00%
Category 7A	2.00%
Category 7B	2.00%
Category 8	2.00%
Category 9	2.00%
Category 10A	2.00%
Category 10B	2.00%
Category 11A	2.00%
Category 11B	2.00%
Category 12	NOT RESTRICTED

The 2% limit applies consistently from Categories 1 through 11B; Category 12 is specifically stated as Not Restricted.

CATEGORY 4 – FINE FRAGRANCE

Applicable to products such as:

Parfum • Extrait de Parfum • Eau de Parfum • Eau de Toilette • Cologne

Maximum Permitted Level: 2.00%

The concentration of a fragrance ingredient should not exceed the usual concentration of the fragrance compound in the finished product.

IFRA RESTRICTED CONSTITUENTS

The material contains the following substances that are subject to IFRA Standards:

Restricted Constituent	Concentration
Carvone	< 0.01%
Eugenol	< 0.50%
Geraniol	< 0.50%
Furfural	< 0.05%

The certificate confirms these four restricted constituents and states that the material complies with the applicable IFRA specification.

CATEGORIES 1 AND 6

AROM OLOGY

Due to the possibility of incidental oral ingestion from products falling within Categories 1 and 6, approved flavour-material status as defined by the IOFI Code of Practice may also be required.

This IFRA Certificate does not constitute confirmation of such flavour-material conformity. A separate assessment or document is required where applicable.

IFRA 51 CONFORMITY DECLARATION

We hereby declare that:

CO-DISTILLED CYPRIOL & DAVANA OIL

Chemical Description: Mixture of Aromatic Substances

CAS Number: Mixture

has been assessed with reference to the IFRA Standards up to and including the 51st Amendment.

The maximum permitted concentration is:

CATEGORIES 1–11B: 2.00%

CATEGORY 12: NOT RESTRICTED

The material contains the following IFRA-restricted constituents:

Carvone: <0.01%

Eugenol: <0.50%

Geraniol: <0.50%

Furfural: <0.05%

The stated use restrictions are based on materials restricted by IFRA Standards for the relevant toxicity endpoints. The certificate does not constitute a comprehensive safety assessment of every constituent of the product.

DISCLAIMER

This certificate provides restrictions for the use of Co-distilled Cypriol & Davana Oil based on substances restricted under applicable IFRA Standards.

It does not constitute a comprehensive safety assessment of all constituents of the material. The manufacturer of the finished product remains responsible for ensuring the safety and regulatory compliance of the final formulation and conducting further testing or assessment where required.

Compliance with IFRA Standards does not itself establish suitability for use within the EEA where additional requirements, including applicable REACH requirements, may apply.
