**Co-distilled Grapefruit & Cedarwood**

### PRODUCT INFORMATION

**Product Name:** Co-distilled Grapefruit & Cedarwood  
**Chemical Description:** Mixture of Aromatic Substances  
**CAS Number:** Mixture  
**EC / EINECS Number:** Mixture

**Product Type:** Perfumery Raw Material / Aromatic Mixture  
**Intended Use:** Raw Material for Fragrance Manufacturing

### IFRA CONFORMITY

We certify that:

#### CO-DISTILLED GRAPEFRUIT & CEDARWOOD

is in compliance with the Standards of the International Fragrance Association (IFRA), up to and including the 51<sup>st</sup> Amendment to the IFRA Standards, published June 2023, provided that the material is used in the applicable product categories at or below the maximum concentration levels stated below.

#### IFRA 51 MAXIMUM USE LEVELS

| IFRA Category | Maximum Level of Use |
|---------------|----------------------|
| Category 1    | 1.08%                |
| Category 2    | 0.32%                |
| Category 3    | 6.40%                |
| Category 4    | 6.00%                |
| Category 5A   | 1.52%                |
| Category 5B   | 1.52%                |

## AROM OLOGY

| IFRA Category | Maximum Level of Use |
|---------------|----------------------|
| Category 5C   | 1.52%                |
| Category 5D   | 1.52%                |
| Category 6    | 3.52%                |
| Category 7A   | 12.40%               |
| Category 7B   | 8.89%                |
| Category 8    | 0.64%                |
| Category 9    | 11.60%               |
| Category 10A  | 44.00%               |
| Category 10B  | 8.89%                |
| Category 11A  | 10.20%               |
| Category 11B  | 8.89%                |
| Category 12   | NOT RESTRICTED       |

These are the exact maximum use levels specified in the supplied IFRA 51 Certificate.

---

### CATEGORY 4 – FINE FRAGRANCE

Applicable to products such as:

Parfum • Extrait de Parfum • Eau de Parfum • Eau de Toilette • Cologne

#### MAXIMUM PERMITTED LEVEL: 6.00%

The concentration of a fragrance ingredient should not exceed the usual concentration of the fragrance compound in the finished product.

---

### IFRA RESTRICTED CONSTITUENTS

The material contains the following substances subject to IFRA Standards:

| IFRA Restricted Constituent | Concentration |
|-----------------------------|---------------|
| Citral                      | < 0.50%       |
| Citronellol                 | < 0.10%       |
| Farnesol                    | < 0.10%       |
| Geraniol                    | < 0.10%       |
| Grapefruit Oil Expressed    | < 45.00%      |
| Cedrene                     | < 25.00%      |
| Citronellal                 | < 0.10%       |
| Longifolene                 | < 0.50%       |
| Alpha-Bisabolol             | < 0.60%       |

A R O M O L O G Y

The supplied certificate confirms that the material complies with the latest applicable IFRA specification for these constituents.

---

## **CATEGORIES 1 AND 6**

Due to the possibility of incidental oral ingestion associated with products in Categories 1 and 6, an approved flavour-material status as defined by the IOFI Code of Practice may also be required.

This IFRA Certificate does not include that conformity assessment. A separate document is required where such confirmation is necessary.

---

## **IFRA 51 CONFORMITY DECLARATION**

We hereby declare that:

### **CO-DISTILLED GRAPEFRUIT & CEDARWOOD**

**Chemical Description:** Mixture of Aromatic Substances

**CAS Number:** Mixture

**EC / EINECS Number:** Mixture

has been assessed in accordance with the IFRA Standards up to and including the 51st Amendment.

The maximum permitted concentrations according to the applicable IFRA product categories are those stated in this certificate.

For Category 4 – Fine Fragrance, the maximum permitted concentration is: 6.00%

For Category 12, the material is: NOT RESTRICTED

The material contains the following IFRA-restricted constituents:

Citral: <0.50%

Citronellol: <0.10%

Farnesol: <0.10%

Geraniol: <0.10%

Grapefruit Oil Expressed: <45.00%

Cedrene: <25.00%

Citronellal: <0.10%

Longifolene: <0.50%

Alpha-Bisabolol: <0.60%

---

## **SAFETY ASSESSMENT STATEMENT**

This certificate provides restrictions for the use of Co-distilled Grapefruit & Cedarwood based on substances restricted under the applicable IFRA Standards for the relevant toxicity endpoints.

A R O M O L O G Y

It does not constitute a comprehensive safety assessment of every constituent of the material.

The manufacturer of the finished product remains responsible for ensuring the safety of the final formulation and conducting further testing or assessment where required.

---

## **DISCLAIMER**

This certificate provides the applicable restrictions for Co-distilled Grapefruit & Cedarwood based on substances restricted by the IFRA Standards.

The stated maximum use levels apply to the relevant IFRA product categories and do not constitute a comprehensive safety assessment of the finished product.

The manufacturer of the finished product remains responsible for ensuring that the final formulation complies with all applicable IFRA Standards and other regulatory requirements.

Compliance with this certificate does not itself establish suitability for use within the EEA, where additional regulatory requirements may apply.
