Elderflower Absolute

PRODUCT INFORMATION

Product Name: Elderflower Absolute
Product Type: Absolute
Supplier Product Code: ELDC001
IFRA Amendment: 51st Amendment
IFRA Standards Publication: June 2023
Original Certificate Issue Date: 27 October 2026
Original Certificate Version: 2 (10 September 2026)

IFRA CONFORMITY DECLARATION

AROMOLOGY hereby declares, based on the supplier's IFRA Certificate of Conformity, that Elderflower Absolute (ELDC001) complies with the Standards of the International Fragrance Association (IFRA), up to and including the 51st Amendment, published June 2023, provided that the material is used at or below the maximum concentrations specified below.

The maximum usage levels apply to the concentration of Elderflower Absolute in the finished product.

IFRA MAXIMUM USAGE LEVELS

IFRA Category	Product Application	Maximum Usage (%)
Category 1	Lip products and children's toys	28.00%
Category 2	Deodorants, antiperspirants and body sprays	Not Limited
Category 3	Eye products and facial makeup	Not Limited
Category 4	Fine fragrances, perfumes and aftershaves	Not Limited
Category 5A	Body lotions, creams and oils	Not Limited
Category 5B	Facial moisturisers and creams	55.00%
Category 5C	Hand creams, nail products and sanitisers	Not Limited
Category 5D	Baby creams, lotions and oils	20.00%

AROMOLOGY

Category 6	Oral care products	Not Limited
Category 7A	Rinse-off hair treatments	Not Limited
Category 7B	Leave-on hair products	Not Limited
Category 8	Intimate hygiene products	20.00%
Category 9	Rinse-off body products	Not Limited
Category 10A	Household products, non-aerosol	Not Limited
Category 10B	Household aerosol and spray products	Not Limited
Category 11A	Minimal-transfer products without UV exposure	20.00%
Category 11B	Minimal-transfer products with potential UV exposure	20.00%
Category 12	Candles, incense and non-skin-contact products	Not Limited

All category limits are reproduced from the supplier's IFRA 51st Amendment certificate.

Important: “Not Limited” means no numerical maximum is specified for that category in the supplied IFRA certificate. It does not remove the need for finished-product safety assessment.

IFRA RESTRICTED COMPONENTS

The supplier identifies the following materials subject to IFRA limits:

Restricted Component	CAS Number(s)	Concentration in Raw Material
Anisyl Alcohol	105-13-5, 1331-81-3	0.0100%
Benzyl Alcohol	100-51-6	0.0800%
Citronellol	106-22-9, 1117-61-9, 26489-01-0, 6812-78-8, 141-25-3, 7540-51-4	0.0300%
Eugenol	97-53-0	0.0300%
Geraniol	106-24-1	0.0300%

All concentrations and CAS numbers have been retained from the supplier's IFRA declaration.

IMPORTANT USAGE CONDITIONS

The maximum concentrations specified in Section 2 apply to the finished product.

For applications outside the specified IFRA categories, or where higher concentrations are required, a new safety evaluation may be necessary.

The supplier recommends obtaining an additional assessment before using the material outside the declared conditions.

AROMOLOGY

REGULATORY AND SAFETY INFORMATION

This certificate confirms conformity with the IFRA 51st Amendment restrictions applicable to the specified product, based on the original supplier's declaration.

The restrictions are based on substances subject to IFRA Standards and the toxicological endpoints covered by those standards.

This declaration does not constitute a comprehensive safety assessment of all constituents present in Elderflower Absolute.

The manufacturer of the finished product remains responsible for ensuring product safety and compliance with applicable regulations.

DISCLAIMER

The information contained in this certificate is based on the original supplier's IFRA Conformity Certificate for Elderflower Absolute, Product Code ELDC001, issued on 27 October 2026.

The maximum concentrations stated are IFRA limits for the finished product and should not be interpreted as recommended formulation concentrations.

The technical information has been reformatted for AROMOLOGY without changing the supplier's declared IFRA category limits or restricted constituent concentrations.
