FILBERTONE

PRODUCT IDENTIFICATION

Parameter	Details
Product Name	Filbertone
Manufacturer	Symrise
Symrise Product No.	690986
Chemical Name	5-Methylhept-2-en-4-one
CAS Number	81925-81-7
Additional CAS Reference	102322-83-8
FEMA Number	3761
Molecular Formula	C ₈ H ₁₄ O
Molecular Weight	126.2 g/mol
Chemical Class	Ketone
IFRA Reference	Up to and including IFRA 51st Amendment

IFRA 51 STATUS

Based on available IFRA 51 conformity documentation for:

FILBERTONE

CAS 81925-81-7

the substance:

DOES NOT APPEAR ON THE IFRA RESTRICTION / PROHIBITION / SPECIFICATION LIST.

Accordingly, no Filbertone-specific IFRA maximum-use concentration is established under the 51st Amendment.

A R O M O L O G Y

IFRA CATEGORY STATUS

IFRA Category	Filbertone-Specific IFRA 51 Maximum
Category 1	No specific IFRA restriction established
Category 2	No specific IFRA restriction established
Category 3	No specific IFRA restriction established
Category 4	No specific IFRA restriction established
Category 5A	No specific IFRA restriction established
Category 5B	No specific IFRA restriction established
Category 5C	No specific IFRA restriction established
Category 5D	No specific IFRA restriction established
Category 6	No specific IFRA restriction established
Category 7A	No specific IFRA restriction established
Category 7B	No specific IFRA restriction established
Category 8	No specific IFRA restriction established
Category 9	No specific IFRA restriction established
Category 10A	No specific IFRA restriction established
Category 10B	No specific IFRA restriction established
Category 11A	No specific IFRA restriction established
Category 11B	No specific IFRA restriction established
Category 12	No specific IFRA restriction established

IMPORTANT INTERPRETATION

“No specific IFRA restriction” does NOT mean:

- Automatically safe at 100%
- Suitable for direct skin application
- Automatically compliant in every cosmetic
- Automatically suitable at any concentration
- Exempt from formulation safety assessment

It means that Filbertone itself does not have a specific Restriction, Prohibition or Specification Standard under IFRA 51.

The finished fragrance must still comply with all applicable IFRA Standards arising from every material and constituent in the complete formula.

FINE FRAGRANCE – CATEGORY 4

Products normally assessed within the applicable fine-fragrance category include:

- Parfum

AROMOL OGY

- Extrait de Parfum
- Eau de Parfum
- Eau de Toilette
- Cologne

For Filbertone itself:

NO FILBERTONE-SPECIFIC CATEGORY 4 MAXIMUM HAS BEEN ESTABLISHED UNDER IFRA 51.

The concentration should instead be selected according to:

- Safety assessment
- Olfactory requirement
- Finished formulation
- Applicable cosmetic legislation
- Restrictions contributed by other ingredients

SYMRISE PERFUMERY GUIDANCE

Symrise's perfumery documentation describes Filbertone as an exceptionally powerful material.

The commercial **Filbertone 1% TEC** is recommended at approximately:
0.1–2%
in a fragrance composition.

This is an:
OLFACTIVE RECOMMENDED USE LEVEL

and:

NOT AN IFRA MAXIMUM.

Because this product is itself a 1% dilution, its active Filbertone content is extremely low.

COMPLETE FORMULATION REQUIREMENT

The responsible fragrance manufacturer must assess:

1. Intended consumer-product application
2. Applicable IFRA category
3. Complete fragrance composition
4. All restricted constituents
5. Natural complex substances
6. Fragrance dosage in finished product
7. Applicable IFRA Standards
8. Finished-product safety

CERTIFICATE STATEMENT

We hereby declare that the regulatory review for:

FILBERTONE – SYMRISE

Product No. 690986

CAS 81925-81-7

indicates no substance-specific restriction, prohibition or specification under the IFRA Standards up to and including the 51st Amendment.

The complete fragrance formulation must nevertheless be assessed for compliance with all applicable IFRA Standards.

DOCUMENT CONTROL

Item	Details
Product	Filbertone – Symrise
Product No.	690986
CAS No.	81925-81-7
IFRA Amendment	51st
Prepared By	Quality Assurance Department
Approved By	Abdul Wasay
Designation	Independent Perfumer & Creative Director

DISCLAIMER

This document is a supplier-style IFRA regulatory declaration and is not represented as an original Symrise IFRA Certificate.

The conclusion regarding Filbertone's IFRA 51 status is supported by available conformity documentation for CAS 81925-81-7 stating that the material does not appear on the IFRA Restriction/Prohibition/Specification List.

The current original Symrise regulatory documentation shall take precedence where available.
