IMPORTANT CATEGORY RESTRICTIONS

Category 1: Not approved for lip products and children's toys.

Category 6: Not approved for toothpaste, mouthwash, breath sprays and other products with oral exposure.

INTERPRETATION OF "NOT LIMITED"

"Not limited" means that the product is not subject to a quantitative maximum concentration under an applicable IFRA Standard for that category.

It does not mean that unrestricted use is automatically safe. The finished-product manufacturer must still consider:

- Skin sensitisation
 - Toxicological safety
 - Environmental safety
 - Allergen labelling
 - Normal fragrance-use concentrations
 - Finished-product compatibility
 - Applicable cosmetic legislation
-

RESTRICTED INGREDIENT INFORMATION

Available IFRA 51 information for Gurjun Balsam states that the material does not contain a substance subject to an additional quantitative IFRA restriction.

The new Van Aroma batch contains:

Constituent	CAS Number	Batch Concentration
Beta-Caryophyllene	87-44-5	2.51%

Beta-Caryophyllene is an EU fragrance allergen under Regulation (EU) 2023/1545, but its presence does not create a separate quantitative maximum-use limit in the referenced Gurjun Balsam IFRA 51 certificate.

CERTIFICATION

Product: Gurjun Balsam Dark – Gurjunene

IFRA Status: Conforms to IFRA 51

Category 4 Status: Not limited

Categories 1 and 6: Not approved

All Other Categories: Not limited

A R O M O L O G Y

This certificate does not replace a comprehensive finished-product safety assessment.

Issue Date: 19/01/2026

Expiry/Review Date: 18/01/2029
