### PRODUCT INFORMATION

| Item             | Details                                          |
|------------------|--------------------------------------------------|
| Product Name     | Hay Absolute                                     |
| Botanical Source | <i>Lolium perenne</i> L. (representative source) |
| CAS Number       | 8031-00-3                                        |
| EC Number        | 682-743-6                                        |
| Material Type    | Natural Complex Substance                        |
| IFRA Amendment   | 51st Amendment                                   |

---

### DECLARATION

Hay Absolute has been evaluated as a Natural Complex Substance under the IFRA 51st Amendment.

The material itself does not have a universal maximum use level. Compliance is established by calculating the concentration of naturally occurring restricted constituents, principally Coumarin, together with contributions from all other ingredients in the finished fragrance.

---

### REPRESENTATIVE RESTRICTED CONSTITUENTS

| Constituent                   | Representative Level                         | Assessment                           |
|-------------------------------|----------------------------------------------|--------------------------------------|
| Coumarin                      | Approximately 8% (IFRA representative value) | Calculate according to IFRA category |
| Other Restricted Constituents | Batch dependent                              | Assess where detected                |

---

A R O M O L O G Y

## CONDITIONS OF COMPLIANCE

Finished-product compliance requires:

- Batch-specific analytical review.
- Selection of the correct IFRA category.
- Calculation of Coumarin from all formulation sources.
- Finished-product toxicological assessment.
- Review of oxidation and storage history.

---

## IMPORTANT NOTES

This statement does **not** indicate that:

- Hay Absolute may be used at any concentration.
- Finished products are automatically IFRA compliant.
- Coumarin restrictions do not apply.

---

## CONCLUSION

Hay Absolute conforms with the IFRA 51st Amendment when all applicable constituent restrictions, particularly Coumarin, are correctly calculated for the intended finished product. No universal maximum use percentage is assigned.
